THE ARTIST

MICHAEL ARAM

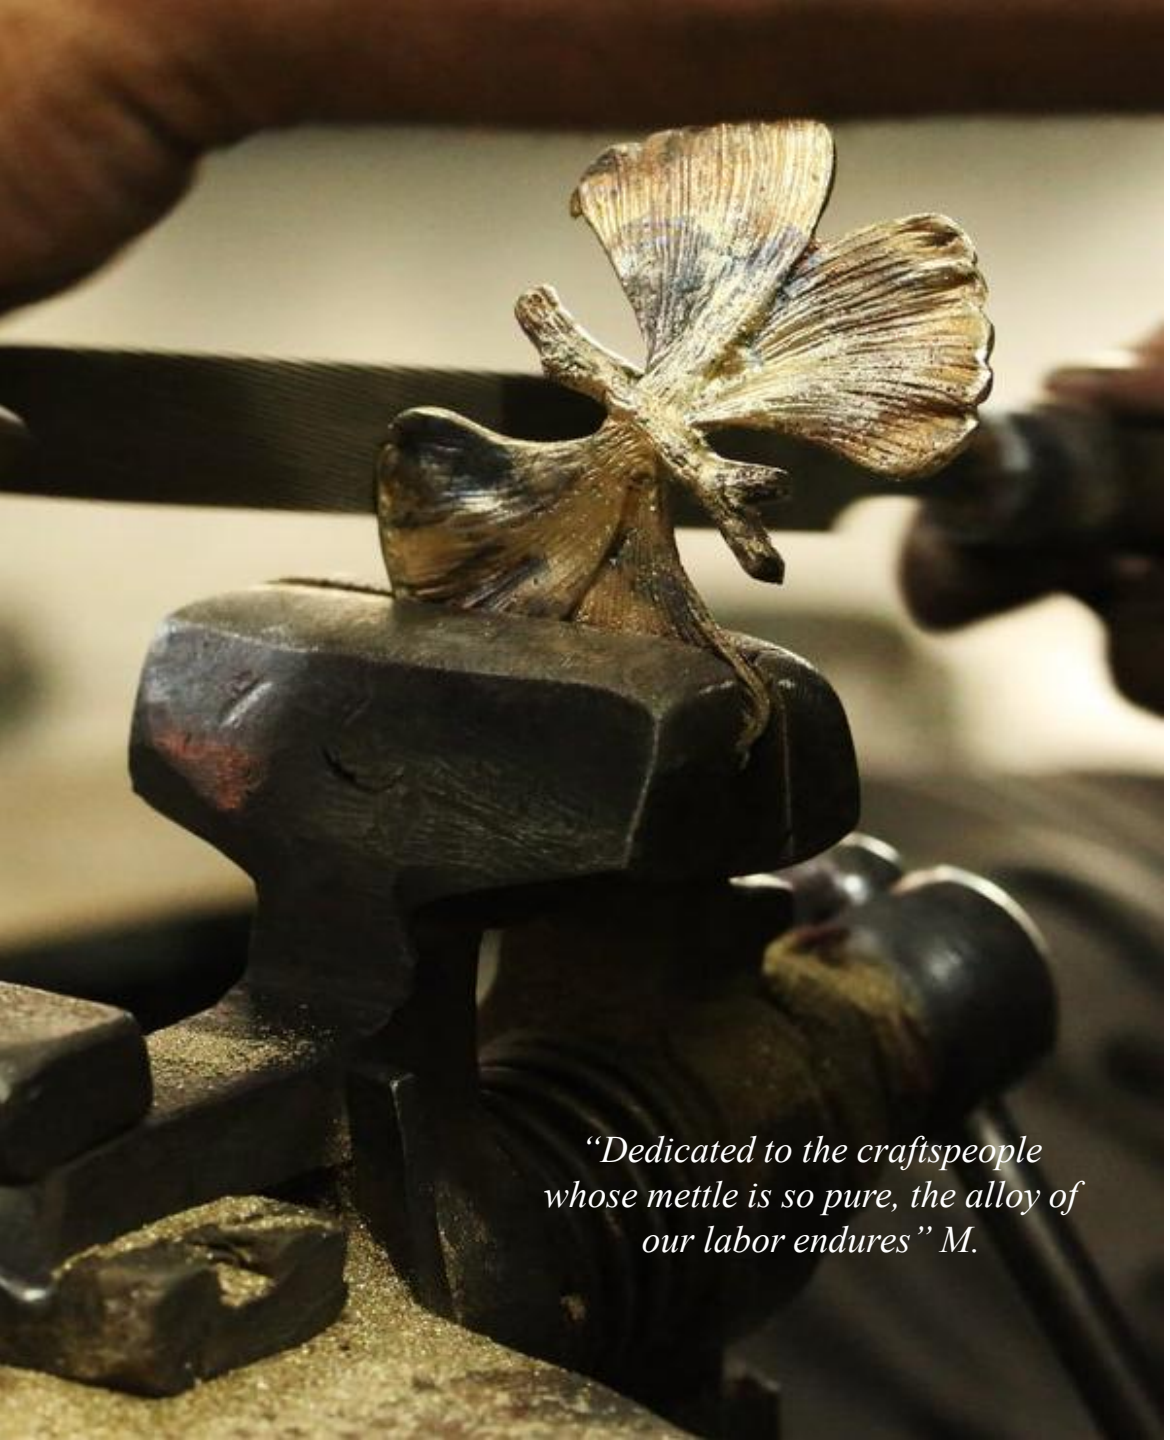
Michael Aram

Michael Aram is an internationally recognized designer who creates luxurious objects to enhance the everyday. While the business of Michael Aram has grown exponentially over the decades, Michael Aram the artist and inveterate entrepreneur is still personally behind every design that bears his name. Each piece represents a celebration of the hand – from the original drawing Michael creates at its inception, to the masterful artisans who give it life. Each is made one at a time, so no two are exactly alike, but all are imbued with a vibrancy that engages the senses and sparks both contemplation and conversation.

The Making Process

Fascinated with the richness of the living crafts tradition which he discovered on his first trip to Delhi, Michael would seek out craftsmen in the old city by listening for the sound of metal being beaten and by searching for the aroma of baked molasses, a signal of the sand casting process. Touched by the talent and humility of these gifted artisans, Michael set up a studio in India where he has created his work for over 35 years. Today, over 200 artisans work alongside him in his workshop where the same creative interaction between artist and artisan remains the source of every object that Michael makes.

MICHAEL ARAM



Motif & Inspiration

Michael is highly inspired by his surroundings and often makes sculptures of objects that might otherwise be overlooked in the everyday. Nature is his biggest muse, as is the handmade process. His work combines the imperfections innate in the handmade process with the perfectly imperfect beauty of nature to create objects that reflect humanity. Many of his pieces are ingrained with a rich storyline, inherent symbolism, and deep-rooted meaning. Sometimes his work is simply an exploration and celebration of the handmade process.
