# History :

*2001 Established as a wet PU factory named “Hangzhou Kangcheng industry co.,ltd*

*2002-2013 quick development to total 342 staff .products sells over 32 countries capability  
25000000meter/year*

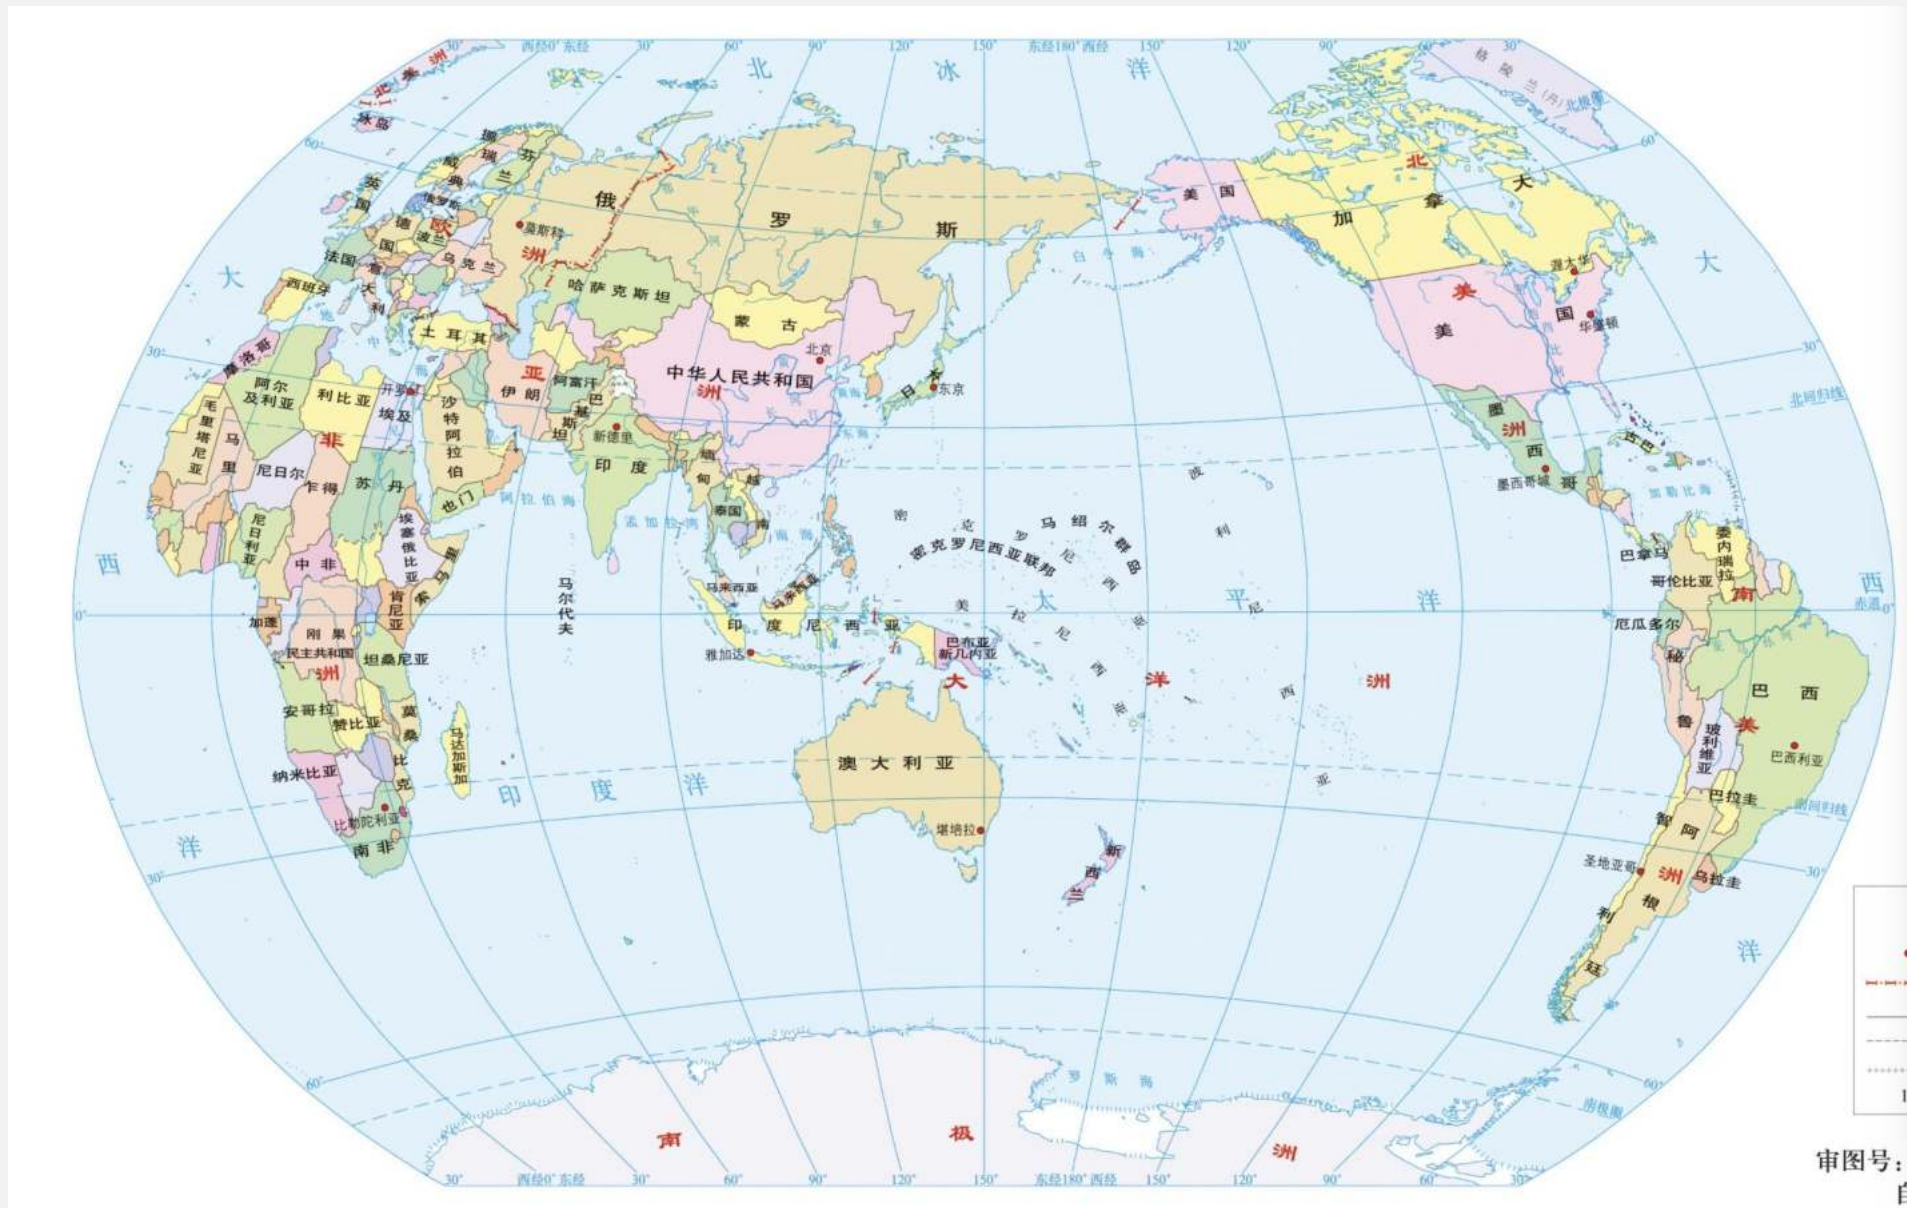

*2013–2017 we research on the latest new technology .extend the hydrolysis from 2 years to 7  
years Industry innovation*

*2017 we expand our business from only the artificial leather to all kinds of upholstery fabrics for  
furniture .brand “enjoytex —fabrics convertor*

*2017 -2021 Our products line covers Chenille Jacquard . polyester . cotton . Linen. recycle fabrics  
polypropylene and faux leather to serve our sofa manufacturer and brand sofa company.*

# ► Our customers

Most of our goods are exported to Europe (Germany ,holland .Poland .Italy .Spain ) and USA (Morgan fabrics .Culp inc. gumtree fabrics and Ashley ect ) Viet Nam and also Russia Australia

# Our advantage as fabric convertor ?

## **1. Good at New development**

*Every month we develop new items from latest new yarns .sensitive to the trend*

## **2. Stable quality**

*We have our own lab test room ( Martindale ,tearing strength ,peeling . UV resistant ,color fastness ect .We test all materials before production and also test the bulk .*

*All samples from each order will be kept for 2 years as record .*

*Our QC checks each meter*

## **3. Professional team**

*We work with a lot of wholesaler and get to know the requirement very well and also the solutions for some urgent cases .easy understanding the customers thinking way ,Act quick .*

## **4. Competitive price**

*Our quantity of orders ensure that we get good prices and we support our mills with good payment terms. We are running 1.500.000m-2.000.000m per month for fabrics.*

## **5. Good reputation**

*We regard our customers as our most precious partners .we care about their benefit more than ours .the good relationship is built as we come through the difficult time together . Enjoytex also helps customers to investigate the new suppliers and control the quality as we are in the center of fabric cities. We know which factories produce the best fabrics to reduce the risk of trying new unknown suppliers. Now china is full of factories at different quality level.*

## ***We work as your office in China***

***Source and develop new items***

***Control the quality***

***Negotiate with suppliers for competitive price***

***Organize shipment***

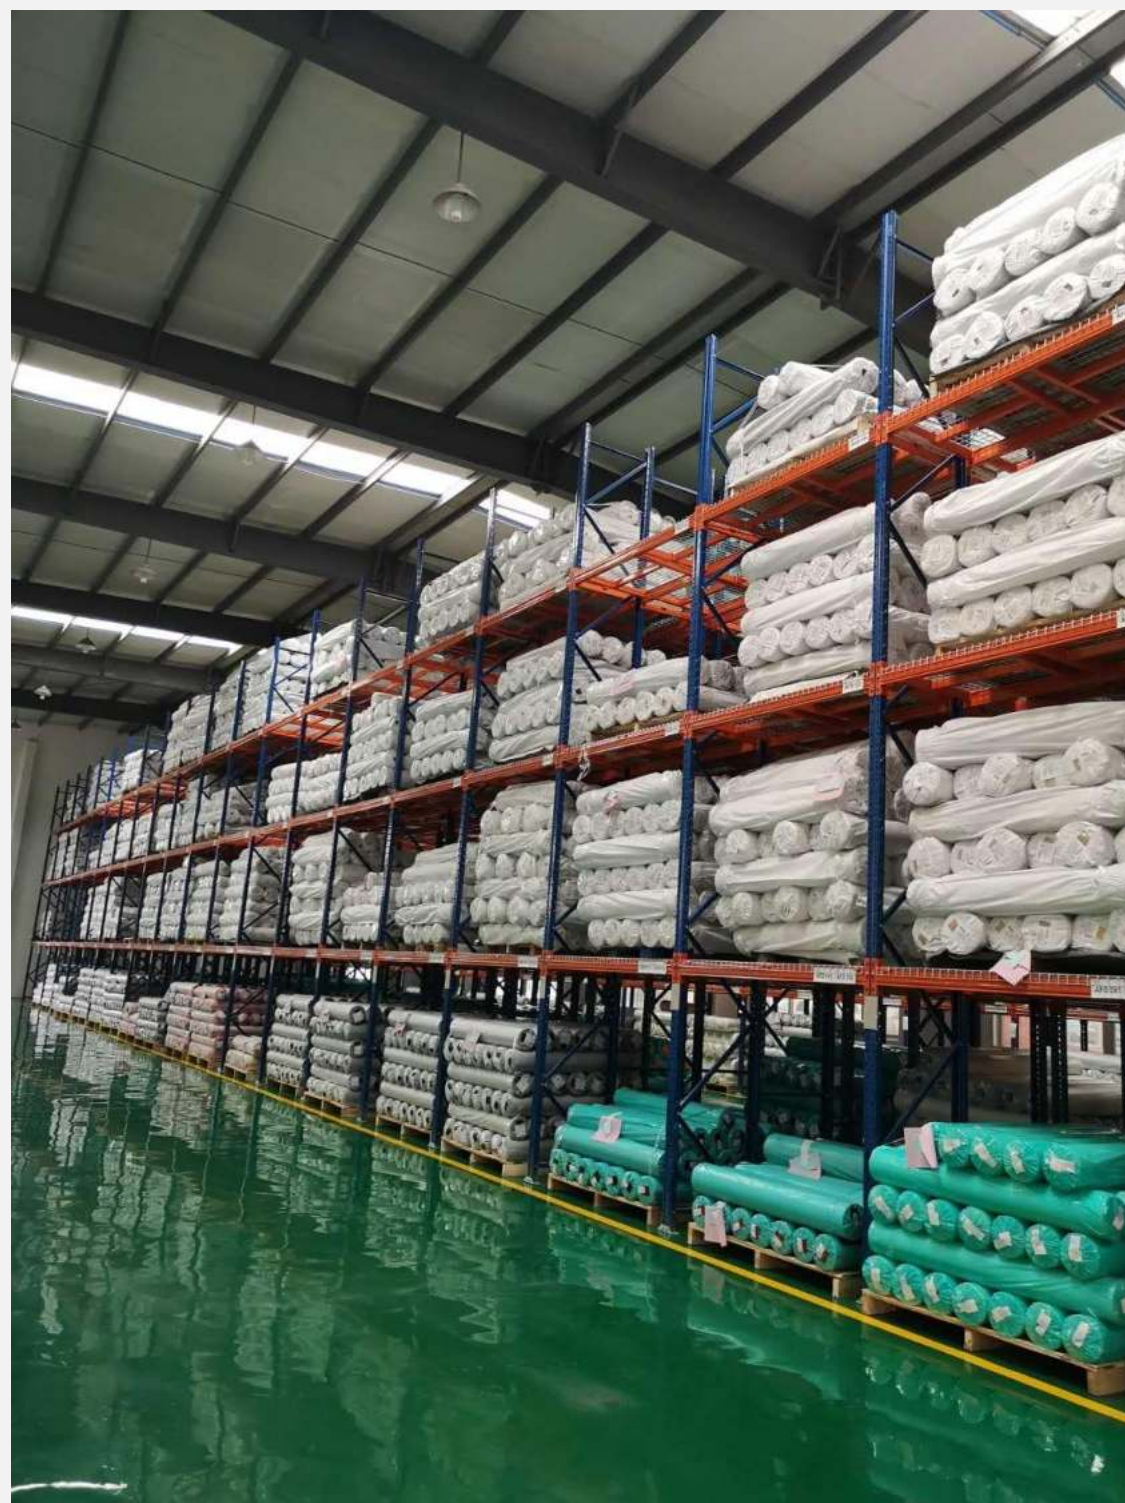

***Find quick solutions***

***Good communicate for better understanding and support***
