# COMPANY PROFILE

## Wujiang chuanghui textile co .,ltd

- Established in 2001 ,from 2001-2011 ,focus on Domestic Market and Fabric weaving .
- From 2011 till now ,focus on Overseas Martket and sales of Wider width fabrics for curtains , 50% direct overseas market ,30% domestic Market,20% indirect overseas market.
- Professional supplier for curtain fabric ,dimmout fabric ,blackout fabric ,curtain sheer and fabrics for curtains
- High ability on OEM & ODM fabrics , at least 10-15 new fabrics develloped each month .
- Factory is located in Wujiang ,Suzhou city ,only one hour away from shanghai with convenient transportation ,and active and reliable trade habits.

# COMPANY DEVELOPMENT HISTORY

## 2001-2011

### Date of Company Established

Founded in 2001, the company is committed to domestic market; Since 2011, we have been engaged in the production and sales of wide-width home textile curtain fabric for more than 20 years

# COMPANY DEVELOPMENT HISTORY

## 2011-2023

### EXPORT DEVELOPMENT

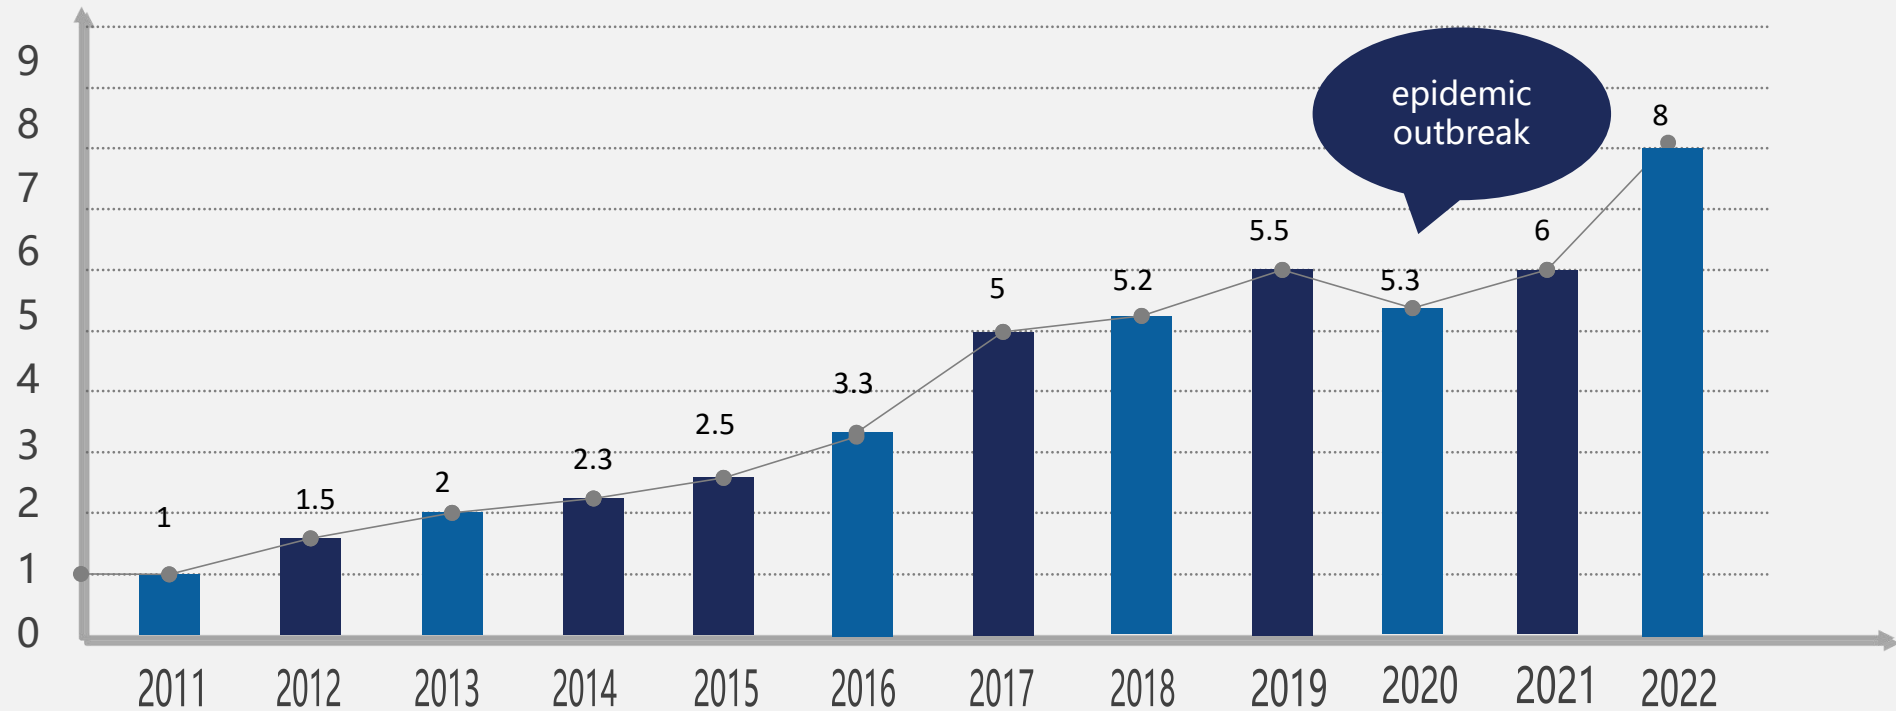

Expand the factory, further expand the scale, from the majority of external processing to independent production; To develop export business; Through OEKO TEX-100 certification, implement ERP management; Expand the factory, further expand the scale, from the majority of external processing to independent production; To develop export business.

# COMPANY PROFITABILITY

MILLION/USD Dollars(Export sales)

# PRODUCT

1.

## **100% Blackout**

Acrylic Coating/ Lamination

2.

## **Many upper fabric collections**

Linen/ Plain/ Jacquard/ Satin/ Embossed

3.

## **Textile Info**

Wide width 140-320CM

Customized Weight

4.

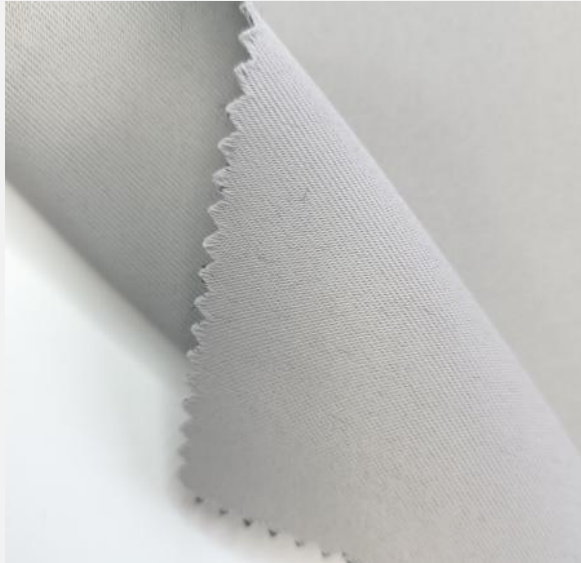

## **Powerful functions**

Flame Retardant/ Reduce Noise/ Washable

# PRODUCT

1.

**Dimout(80%-99%)**

Black yarn

2.

**Varied Fabric outlook**

Can weave different outlook on two sides

3.

**Textile Info**

Wide width 140-320CM

Customized Weight

4.

**Powerful functions**

Flame Retardant/ Breathable/ Washable

# PRODUCT

1.

**Sheers**

2.

**Many upper design collections**

Linen/Chiffon/Dyed/Embossed/gilding

3.

**Textile Info**

Wide width 140-340CM

Customized Weight

4.

**Powerful functions**

Flame Retardant/Heat Resistent/Washable

**TEST REPORT 23-0223-02**  
Test report 23-0223-02, modified test report 23-0223-01 from 07842023  
Modifications are denoted by M1

**Sample received**

Name	Date of receipt
100% polyester triple woven blackout fabric M1 Width in 150cm, 300cm and 320cm	15/03/2023

**Aim of the test**  
Determination of fire behaviour

**Test conditions**

**Fire behaviour**  
Standard: NF P 92-503 (1985) : Sécurité contre l'incendie  
Bâtiment - Essai de réaction au feu des matériaux  
Essai au brûleur électrique appliqué aux matériaux souples d'une épaisseur inférieure ou égale à 5 mm.

**Method:**  
**Test with electric burner NF P 92-503**  
A test specimen of 500 mm x 150 mm is tilted 30° towards the horizontal and is placed under certain conditions above an electrical burner. Twenty seconds after the beginning of the test, a gas flame is put against the fabric for 5 seconds above the burner. This is repeated after 20 seconds and is then repeated every 30 seconds, if no ignition occurs or if the flame goes out. This is continued until the test time of 5 minutes is passed. The ignition duration is measured and after the test the maximum dimension of the burned zone are measured.

**Number of tests:**  
Conditioning samples: 23 ± 2 °C and 50 ± 5 % R.H.

**CLASSIFICATION**  
Taking into account the obtained results, the fabric M1 obtains the class M1.  
The classification is only valid for materials that correspond to the tested sample.

The test results only apply to materials that correspond to the tested sample. Forgery will be legally prosecuted, just like partial reproduction without prior written permission. Tests that are marked "no accredited" Advice and interpretations are not covered by the accreditation. 23-023-01
