Pioneers in Digital Printing

Strategic **Direction** & Change Drivers

Optimized Value Chain – Cost Conscious culture

Sustainability Throughout – Renewable energy & ZLD

Digitalization – Take on the evolving marketplace

Material & Innovation – Process & Product Improvement

Lean & Automation – Supply Chain capabilities

People Agenda – Nurturing, Enabling & Empowering Talent

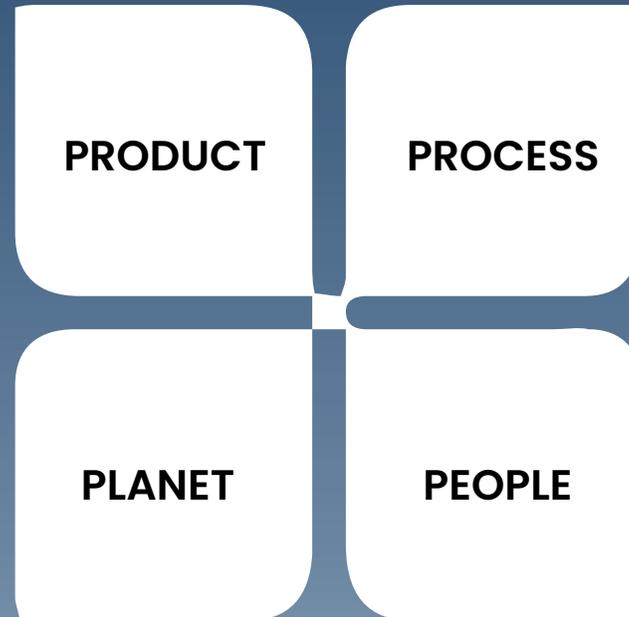

Four P's. One Goal.

A Better Life for everyone.

- Product Design & Material Innovation
- Organic Cotton Project
- Certified Recycled Synthetic Materials
- Post Industrial Waste Recycling
- Sustainable Product Packaging
- Circularity

- Effluent Treatment
- Zero Liquid Discharge Target
- Addition of renewable electricity & thermal energy for GHG reduction
- Science Based Targets
- Reporting Initiatives

- Optimized Processes
- ZDHC compliant chemical management system
- Global Design Collaboration
- Agile Manufacturing
- Traceability

- Diversity & Inclusion
- Vocational training for women and differently abled people
- Empowered MANCOMS
- Commitment to health & wellbeing
- People and Culture

Sustainability isn't just something we say, it's *everything* we do.

Global Design Collaboration

**Where
sustainable
Innovation
happens
every day** ■

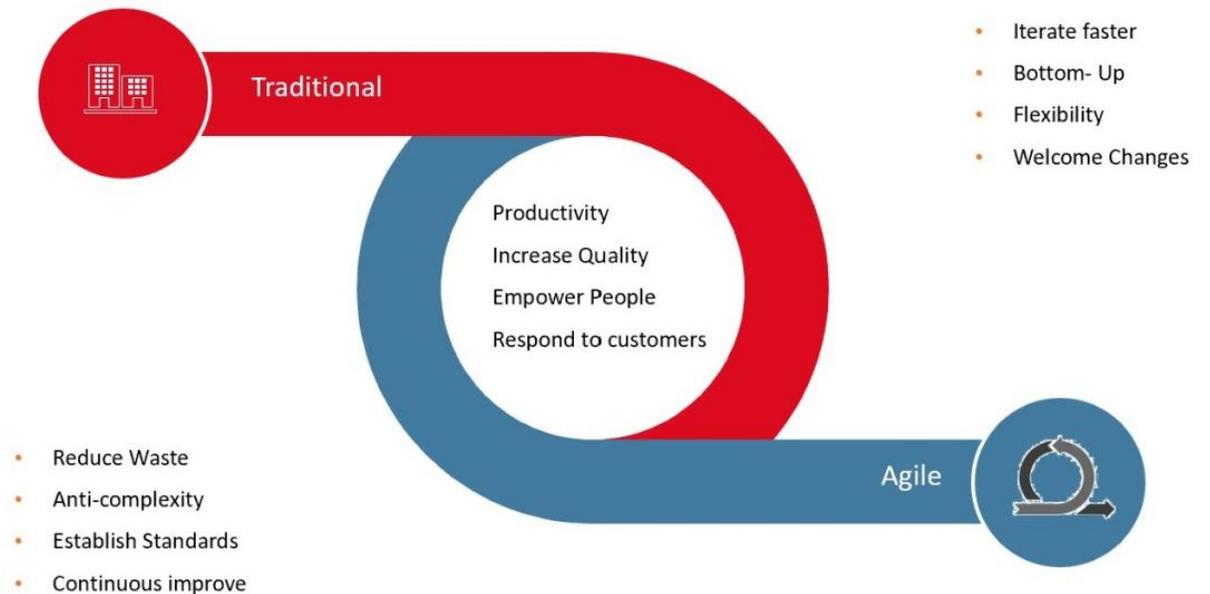

The Ideas Lab is a creative virtual space at Gul Ahmed where designers, weavers, printers, dyers work together to develop sustainable “fabrics of the future.”

With studios in the United States, United Kingdom and Pakistan, Gul Ahmed’s design team creates trend right, saleable products for its brands and retail partners.

Agile Manufacturing

- **25% Export Growth in FY24**
- **Versatile Products**
- **1000+ SKUs**
- **Speed to Market**
- **Domestic Warehousing**
- **Assessing Resource Efficiency & Decarbonization Potential**

People & Culture

Enriching lives by inspiring change...

Gul Ahmed Sustainability

Gul Ahmed is driven by its **ESG** (Environmental, Social, and Governance) agenda that integrates sustainability and responsible business practices into its operations and decision-making processes.

**We're a
sustainability
company
that makes
beautiful
Textiles ■**

Innovating through *Responsible Product Design & Material Choices*

- ❑ Integrating sustainability from ideation to execution
- ❑ Developing & adopting sustainable materials
 - ❑ Linen
 - ❑ Hemp
 - ❑ Lyocell
 - ❑ Organic Cotton
- ❑ Continuous Innovation

Post Industrial Waste *Recycling*

2,262 tons/month

In house production waste recycling

We are practicing circularity to tackle textile waste by recycling post industrial waste (fibers and yarn) received in-house.

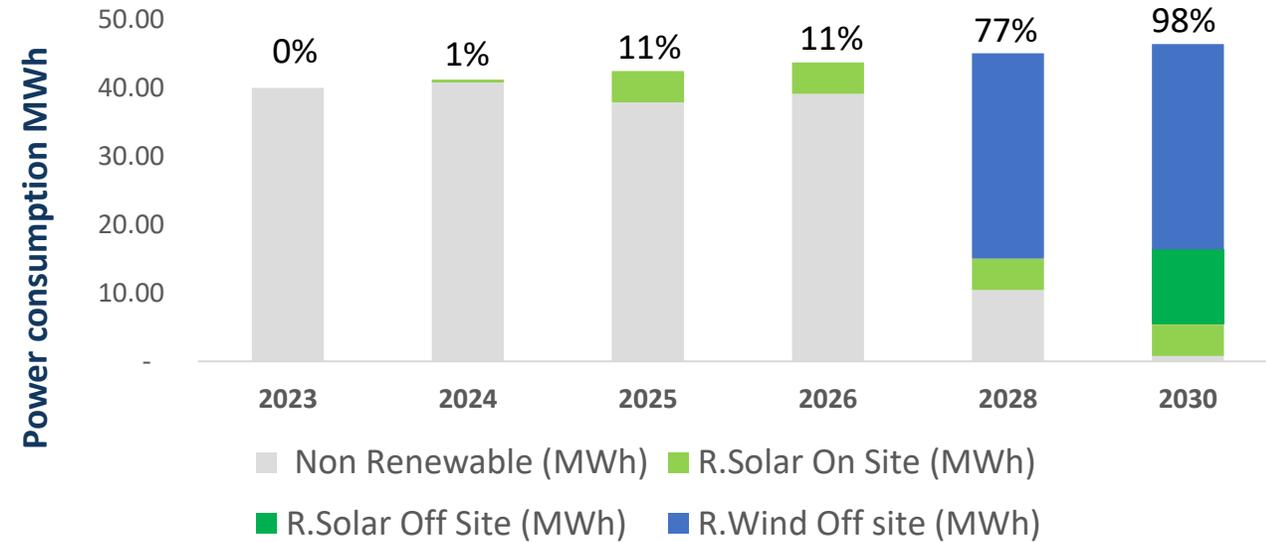

A fully functional waste recycling plant capable of recycling almost **2,262 tons/month** of production waste is helping to maximize the waste recapture to reintroduce it into the production cycle as a raw material

Shifting to 100% Renewable Energy

- ❑ **Current Load:** 40 MW
- ❑ **Onsite Solutions:**
 - ❑ Solar: 19 MW by Q1 2025
- ❑ **Offsite Solutions:**
 - ❑ Solar: 50 MW by 2030
 - ❑ Wind: 100 MW by 2028
- ❑ **Impact:**
 - ❑ 11% renewable share by 2025
 - ❑ 98% renewable share by 2030
- ❑ **Adding Renewable Thermal Energy:**
 - ❑ 50% renewable thermal energy share by Q1 2025

Renewable Electricity

GulAhmed

17.1 MW Solar Plant Project
Redefining Pakistan's Energy Landscape.

**Sustainability isn't
just something we
say, it's *everything* we
do.**
