

bmfabrics:
TRADITION AND INNOVATION

Welcome to bmfabrics, where our **family business** from Herzele has been bringing craftsmanship and quality to life for 75 years. From a cozy little shop, we've grown into an international editor of curtain fabrics and window decorations.

In our own factories in Herzele, we've always passionately worked on creating beautiful trimmings. Now we celebrate this rich history with a nod to the future: meet our unique and **limited edition** *passementerie* collection!

Why this collection? Because every detail is lovingly and carefully **crafted in Belgium** by our authentic suppliers. Each fringe, tassel, or cord is a masterpiece, **inspired by our heritage** and passion for textiles. Add a touch of magic to your curtains and watch them come to life!

Our limited edition of decorative edgings is not only exclusive but also unique in its edition. This means your curtains will truly stand out. Each piece radiates refined elegance, perfect for giving your interior an upgrade.

Discover the sparkling charm of our *passementerie* and let your curtains shine like never before. Dive into the **rich history of bmfabrics** and experience the unparalleled quality we have to offer.
