

WoolNAT

WoolNAT is one of the **high runner yarn groups** produced by TURKTEX, with fabric that successfully **replicates the appearance of real wool**.

WoolNAT series are used as **low cost substitute for wool**. The collection can be used in the production of **curtains, upholstery and fashion**.

WoolNAT's **weaving efficiency is higher than wool**.

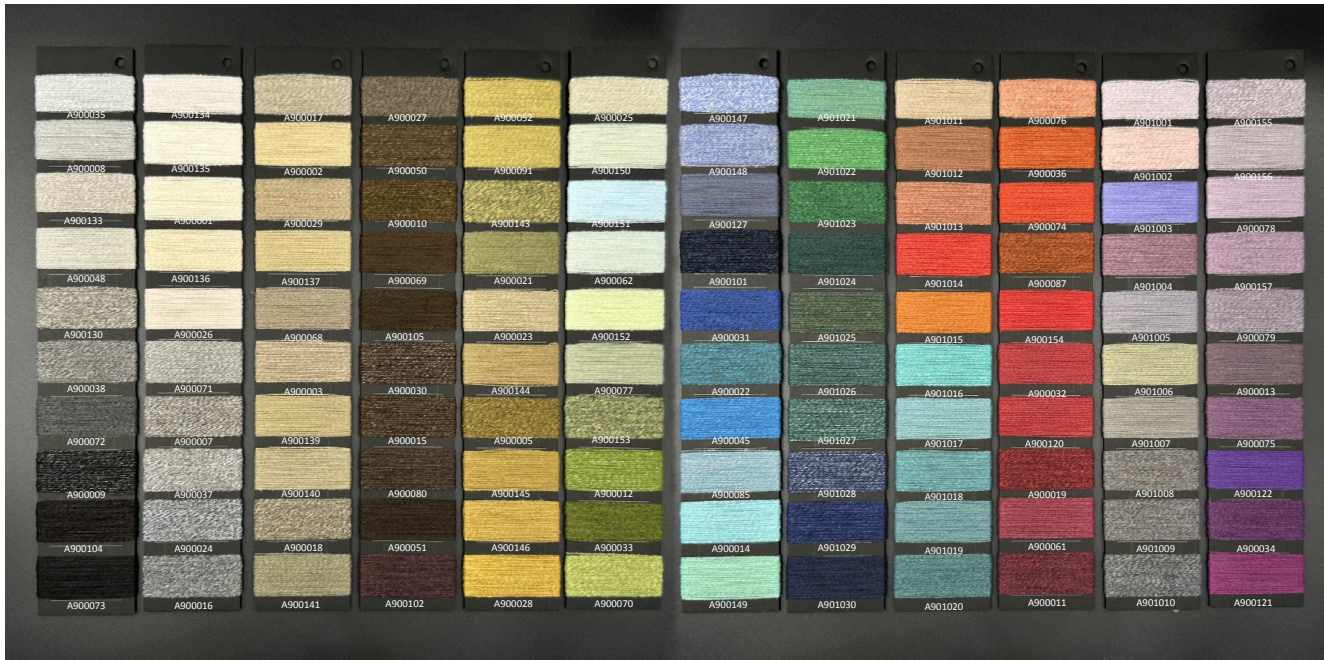

The **fabrics** that are **produced with WoolNAT yarns** not necessarily need to have any **brushing or finishing**, the yarn can be used directly. This is very **useful for simple finishing** of the fabric.

BASE COLORS

There are **48 unicolors** and **countless multicolors** for **virgin polyester**.

Please **request NAT ATY Brochure** to check the **main colors**.

You can also **check FRP, RENAT and FR RENAT unicolors** when choosing color for each **WoolNAT versions**.

**The photos might differ from the real color.
Please request the color card.*

**WoolNAT yarns can be produced as FR, FR ReNAT, SUNNAT and FR RENAT SUNNAT*

NEW COLORS

There is an option to request **new colors** with the **minimum order quantity** of **2 tons per color**.

WoolNAT collection offers **various color combinations** and **wide-range of yarn counts**.
