**We are committed as Egem Textile family.**

## VISION

- As Egem Textile, our vision is to increase quality and continuity on our production, to keep our customers' satisfaction at the top point and to continue technological developments in accordance with the environment and the law.

# Who Are We

Egem Tekstil has founded in Denizli where is known the heart of the textile industry in 1996.

In Egem Tekstil facilities, Organic aegean Turkish cotton quality which is accepted by the world, is being processed. In addition to the production of terry, velour, jacquard, dobby, yarn dyed, piece dyed, embroidered terry towels & bathrobes and mats with the soft texture of cotton with all its naturalness, we are also the company that produces bedding sets, bedspreads, pikes and kitchen sets using mainly organic Turkish Aegean cotton, linen, hemp and other organic fibers in the home textile category.

The secret of Egem Tekstil's success over the past 27 years is that the workforce participates in production selflessly, consciously and passionately, planned growth with decisions made by the management on time and quickly.

The main reason for the adoption of Egem Textile as a reliable production partner in global market is based on the fact that product and service quality and timely delivery have been adopted as a principle. With the most advanced machines of modern technology in a closed area of 8,500 m2 with a workforce of more than 150 we are engaged in Production

In addition to outsourcing production to world-famous brands, Egem Textile has been its own brand since 2012 he also produces for **"Ecocotton"** and **"GreenBlack"**. Requested designs and samples by realizing our brands with the understanding of fast service, we provide our customers with new concepts every year.

In 2022 we shipped out to Germany, Austria, Spain , Italy, the Netherlands, Switzerland, the UK, Australia, Ukraine, Sweden, Denmark, Canada, Slovenia, Hungary, Saudi Arabia, Russia, Africa, Dubai, Qatar, Morocco, China, Japan, Sri Lanka and A.B.D. 4.000.000 pieces of towels, 200.000 pieces of bathrobes, 100.000 pieces bedding items.

As Egem Tekstil, we are committed to continuing our activities in accordance with the environment and related law. To increase the quality and continuity in production by following the technological developments keeping customer satisfaction at the highest point is one of our goal.
