Ipekis Mensucat Turk A.S. **was founded with the directive of Atatürk**, the founder of modern Turkey, only two years after the proclamation of the Republic of Turkey in 1923. The main motive was to utilize the wide - spread sericulture prodution in Bursa area.

Atatürk himself laid the foundation of **Ipekis factory on Oct 1 st, 1925 which is known to be the first industrial premise of the new Republic**, hence a milestone for the start of industrialization under the new regime. Ipekis was founded as an incorporation at that time and was also one of the first exporters in the history of Republic of Turkey.

Ipekis was incorporated into Tarman Group in 1991 and is currently operating in the wool fabric industry. The company is manufacturing at its brand-new factory in Bursa which has a **22.000 sqm. covered area.**

The construction of the new plant which also includes space for design and showrooms was completed in 2012. The head office and the marketing department is located in Bursa & Istanbul. **There is also a branch in Italy to facilitate marketing, sales and new design development.**

Ipekis rooms incorporated is pleased to present trend offering, a cultivated collection of color and pattern that creates a sense of elevated living by connecting with the environment, the past and each other.

■

We create comfortable, livable fabrics for the "rooms" where deep memories are made. There are woolen felt indoor fabrics, high performance outdoor fabrics and more in rooms collection with extra additional treatments like Water Proof, Flame Retardency, Odor Protection, Stain Repellency, Smell Capsuls, Anti Bacterial, Ant&Mildew, Anti Mosquito and more which reflected fabrics are eco-friendly. Being the start point for the fashion world, our fabrics have been very delicately controlled through a number of our quality control processes from projection to production.

■

With the aim of gathering very rapidly changing upholstery trends and technology coherently, we successfully continue with our human oriented growth investments.

■

Ipekis fabrics go through a strict quality control process in many different stages.

“FINEST WOOL FABRIC” is the symbol of our production quality and supports these processes in our products.

A trend that falls softly on a pure and natural selection of fabrics, from wool to a range of linen.

Following this principle, we want to be versatile, adaptable, and especially comfortable.

Rooms target is a part of fabric. **A part of magic. In the end, a soft place to land.**
