Cod. 0004 – Beige Cotto

La Natura è come elemento sussurrato che ci racconta di paesaggi montani, composti di alture, alberi, foglie. L'essenza stessa del bosco diventa spunto per creazioni disegnative e giochi materici. Colori autunnali caldi e accoglienti, in perfetto equilibrio con i toni crepuscolari dei cieli invernali, per plaid e cuscini che vestono la nostra casa con un abbraccio caldo e confortante.

Nature understood as a whispered element tells us stories of mountain landscapes composed of uplands, trees and leaves. The very essence of the forest inspired our design creations and play on materials. Warm and cozy fall colors perfectly balance the twilight tones of winter skies in our throw blankets and pillows to fill our homes with a warm and comforting embrace.
