ABOUT

HISTORY

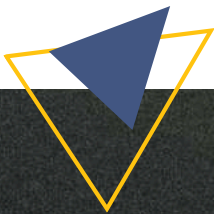

Founded in 1987 under the pioneering spirit of Din Group, Din Textile Mills Ltd. has flourished into a premier textile manufacturing entity in Pakistan. With a profound history dating back to 1954, Din Group laid the groundwork for what would become a significant contributor to Pakistan's economy. Today, Din Textile Mills Ltd. boasts annual sales turnover of over \$150M, underpinned by four state-of-the-art spinning mills with 140,000 spindles, and a cutting-edge weaving unit featuring 144 Air-Jet Looms. Our dedication to excellence, customer satisfaction, and innovation has solidified our position as a key player in the textile industry, both locally and internationally.

VISION

At Din Textile Mills Ltd., we envision a future where our textiles not only spin and weave the yarn and the fabric of everyday life but do so while setting the global benchmark for quality, innovation, and sustainability. Guided by our heritage and propelled by our ambition, we aim to be the preferred partner for customers worldwide, delivering excellence through every thread, every pattern, and every color.

MISSION

Our mission is to harness the rich legacy and expertise of Din Group to produce textiles of unparalleled quality and craftsmanship. Through continuous innovation, customer-centric service, and an unwavering commitment to sustainability, Din Textile Mills Ltd. endeavors to meet the dynamic needs of the global market, while positively impacting our communities and the environment.

Spinning Mills: The Foundation of Quality

Our spinning operations are the backbone of our textile production, creating a wide array of high-quality yarns that serve as the foundation for all our fabrics. From innovative Melange Siro Yarn, Neppy Yarn, and Chain Yarn to specialized offerings like Black Polyester + Lycra Spandex and 100% polyester, our yarns cover an extensive range of needs. The inclusion of 6/1 to 20/1 carded yarns, along with a spectrum from 10/1, 10/2 up to 40/1, 40/2 and 20/1 to 100/1 combed counts, ensures we meet the diverse requirements of our global clientele. Utilizing the finest cotton sources, including 100% Pakistani cotton, USA Cotton, Giza, and Pima Cotton, we produce specialized yarns tailored for both weaving and knitting applications.

Total Spindles: 140,000 all Spinning units.

Weaving Unit: The Heart of Innovation

At the core of Din Textile Mills Ltd's excellence is our weaving unit in production since 2021, where creativity meets technology to produce Greige fabrics of unparalleled quality. Specializing in a wide array of fabrics such as Percales, Ducks, Twills, Drills, Satins, Poplins, and exclusive Dobby and Pique, our weaving capabilities are unmatched. Our fabrics are available in greige widths ranging from 33 inches to 137 inches and GSM from 50 to 300, catering to a vast spectrum of textile applications. We harness yarns of 100% cotton, Tencel, cotton-polyester blends, and groundbreaking materials like bamboo and organic yarns, demonstrating our commitment to innovation and sustainability. This emphasis on our weaving unit highlights our dedication to producing textiles that not only meet but exceed the evolving demands of fashion and home textiles.

Dyeing Unit: Customization and Color Excellence

Through the integration of our spinning, weaving, and dyeing operations, Din Textile Mills Ltd. stands as a paragon of innovation, quality, and sustainability in the textile industry. Our unwavering commitment to excellence is evident in every thread, every fabric, and every product we create.

Complementing our spinning and weaving capabilities, our dyeing unit offers unparalleled customization and color precision. Specializing in cotton yarn, cotton fibers, surgical yarn, bleach yarn, and core spun yarn dyeing, we ensure that every fabric achieves the desired hue and performance characteristics, meeting the stringent requirements of our clients.

Total capacity: 14 tones with capability of VAT Dyeing, disperse & Reactive Dyeing with green Chemistry Dyes.

Home Textiles:

At Din Textiles Ltd, we pride ourselves on our expertise in producing premium home textiles that cater to a diverse range of needs. Our specialized stitching processes ensure that each product meets the highest standards of quality, encompassing a wide array of items such as duvet covers, curtains, flat sheets, fitted sheets, pillow covers, and mattress covers. In addition to home textiles, we also offer kitchen linen, table covers, and textiles tailored specifically for hotels and healthcare facilities, including hotel sheets and hospital linen. Each piece is meticulously crafted to offer a perfect balance of durability, comfort, and aesthetic appeal, making them ideal for enhancing any living space or institutional setting.

Our unwavering commitment to excellence drives us to provide superior textile solutions that not only meet but exceed the expectations of our clients. Whether it's for homes seeking elegance and comfort, hotels aiming to offer luxurious experiences to their guests, or healthcare facilities requiring dependable and hygienic linens, Din Textiles Ltd delivers products that are both functional and stylish. We understand the unique demands of different environments, and our dedication to quality ensures that our textiles contribute to the comfort and satisfaction of those who use them, while also adding a touch of sophistication to every setting"

SUSTAINABILITY MODEL

At Din Textile Mills Ltd., our commitment to the planet extends beyond mere compliance; it's about leading the charge against climate change. By embracing cleaner technologies, transitioning to renewable energy, and advocating for sustainable practices throughout our industry, we aim to significantly diminish our carbon footprint. Our proactive measures are a testament to our dedication to safeguarding our environment for future generations, ensuring a reduction in CO2 emissions and a stride towards a more sustainable future.

ADDRESSING GREENHOUSE EFFECTS:

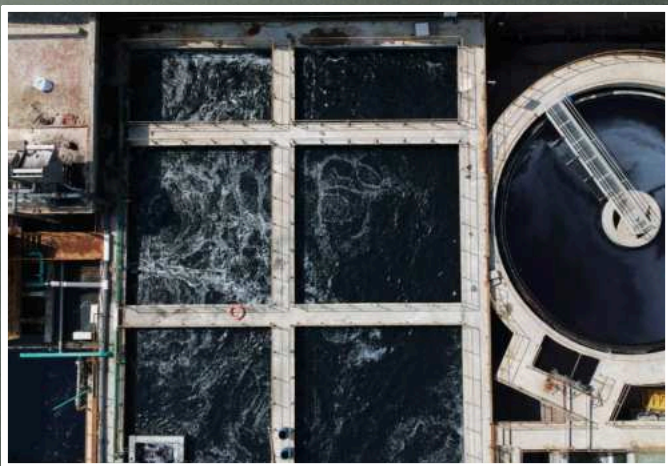

We are committed to mitigating climate change impacts through strategic environmental stewardship. Our approach encompasses the adoption of advanced, cleaner technologies, a shift towards renewable energy sources, and the promotion of sustainable industry practices. This multifaceted strategy enables us to significantly reduce our carbon footprint, demonstrating our dedication to a sustainable future and our role as an industry leader in environmental responsibility.

ENVIRONMENTAL REPORTING:

As proud signatories of the HIGGFEM pledge, Din Textile Mills Ltd. is deeply committed to environmental excellence. Our active engagement in environmental reporting and achieving commendable scores reflect our dedication to transparency, accountability, and continuous improvement in our environmental performance.

WATER TREATMENT:

Our commitment to environmental stewardship is underscored by our advanced effluent treatment plant, which boasts a capacity of 120 cubic meters. Incorporating both chemical and biological treatment processes, this facility ensures that our water discharge meets and exceeds NEQS and ZDHC standards, reflecting our dedication to preserving water quality and promoting a sustainable future.

SUPPLY CHAIN TRANSPARENCY:

Transparency is at the core of our operations at Din Textile Mills Ltd. We strive for an open and ethical supply chain, where every link is held to the highest standards of integrity and sustainability. This commitment ensures that our products are not only of exceptional quality but also produced in a manner that respects both people and the planet.

RESPONSIBLE CHEMICAL MANAGEMENT:

In the realm of textile manufacturing, the management of chemicals is of paramount importance. At Din Textile Mills, we adhere to the highest standards of chemical use, prioritizing the health of our ecosystem, our workers, and our customers. Through stringent selection, handling, and disposal practices, we ensure that our processes are safe, environmentally friendly, and aligned with global sustainability standards.

HARNESSING GREEN ENERGY:

With a firm belief in the power of renewable energy to transform our environmental footprint, Din Group has made significant investments in wind energy projects with an installed capacity of more than 100 MW. These initiatives not only exemplify our commitment to sustainable energy but also highlight our role as pioneers in the industry, driving forward with innovations that reduce our reliance on fossil fuels and contribute to a cleaner, greener planet.

Our dedication to clean energy is vividly demonstrated through the installation of solar power projects across our sites. These projects are a cornerstone of our strategy to harness the sun's limitless energy, providing a sustainable and eco-friendly power source that propels our operations forward, reduces energy costs, and minimizes environmental impact.

We have installed capacity of 8MW, showcasing our substantial commitment to renewable energy solutions.

CERTIFICATIONS

Din Textile Mills Ltd. prides itself on adhering to the highest standards of quality, environmental management, and ethical practices, as evidenced by our comprehensive certifications. We are honored to hold ISO 9001, 14001 certifications, underscoring our commitment to quality management and environmental stewardship.

Furthermore, our dedication to sustainable and responsible manufacturing is reflected in our GOTS, OCS, GRS & RCS certifications, along with OEKO-Tex 100, ensuring our textiles meet the strictest global standards for safety and ecological considerations. Proudly listed on the PSX under the symbol DINT, we continue to lead with transparency, integrity, and excellence.
