Vivace & Jalal

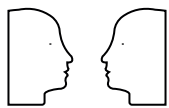

Jalal and Vivace are two interpretations of a contemporary carpet, different and complementary. While the brands show a distinctive personality, they both embody the same founding values of ABC Italia. Few words will suffice to describe them. Design: each carpet from the two collections is a full-fledged project, the outcome of a curious experimentation which results in constant innovations and refinements. Quality: that is the quality of the carpet, naturally, but also of the whole production process, based on accuracy and efficiency criteria shared by all the actors contributing to it.

To conclude, respect: a term to be understood in its multiple meanings, as a deep-rooted work ethic, mindful of people and the environment. It is not by chance if Jalal and Vivace carpets have received all the most important certifications awarding business processes (from Label Step for India and Nepal to ISO 9001 for India, Turkey and Egypt), as well as the quality of the finished product (OEKOTEST). Therefore, Jalal and Vivace form an integral part of the same universe of ABC Italia, defining within it a kaleidoscope of variations that respond to the infinite possible tastes, aesthetics and declinations of the contemporary carpet.

Jalal e Vivace sono due interpretazioni differenti e complementari del tappeto contemporaneo, due brand dotati di una personalità specifica ma che incarnano gli stessi valori fondanti di ABC Italia. Li riassumono poche parole chiave. Design: ogni tappeto delle due collezioni è un vero e proprio progetto, il risultato di una sperimentazione curiosa che determina innovazioni e affinamenti continui. Qualità: quella del tappeto, naturalmente, ma anche quella delle materie prime che lo compongono e dell'intero processo produttivo, impostato su criteri di rigore ed efficienza condivisi da tutti coloro che vi contribuiscono.

Carrara

Contemporary design with finest texture

The carpet takes inspiration from the different veins of Carrara marble. The natural ure is mixed with linear and geometric shapes reminiscent of Art Deco.

A furnishing accessory with a strong character, suitable for both modern and classic decor.

Polyester gives softness and luster, the use of Jute in the warp makes the product durable and refractory to humidity and temperature changes, and polypropylene makes it wear-resistant.

Il tappeto prende ispirazione dalle diverse venature del marmo di Carrara. La ure naturale è mixata a forme lineari e geometriche che rimandano all'Art Deco.

Un complemento d'arredo dal carattere forte, adatto sia ad un arredamento moderno sia classico.

Il poliestere dona morbidezza e lucentezza, l'utilizzo della Juta nell'ordito rende il prodotto durevole nel tempo e refrattario all'umidità e agli sbalzi di temperatura, il polipropilene lo rende resistente all'usura.

Kilim Zagros Natural

Flatwoaven 100% wool in natural colors

È un kilim in 100% lana intrecciata che presenta il disegno classico Gashgai dell'Iran rivisto in una colorazione naturale, quasi tono su tono.

La tecnica utilizzata è flatwoven, o tessitura piatta, che consiste nella lavorazione intrecciata dei fili invece che annodata: questo porta a non avere ciuffi di pelo che costituiscono il vello, rendendo il tappeto più leggero, flessibile, resistente e doubleface.

This is a 100% wool woven kilim that features the classic Gashgai pattern of Iran revised in a natural, almost tone-on-tone coloring.

The technique used is flatwoven and consists of woven threads instead of knotted: this leads to no tufts of pile, making the rug lighter, more flexible, durable and double-faced.
