NOVELTIES 2024/25

[www.dauny.ch](http://www.dauny.ch)

billerbeck Schweiz AG, based in Fischbach-Göslikon AG, is a renowned international company specialising in the production and sale of high-quality bedding. We have been developing and manufacturing bedding products according to scientific criteria using carefully selected filling materials and covering fabrics since 1921. Using the guiding principle of a good night's sleep, we create brand products that fulfil the highest quality standards in terms of materials and environmentally friendly production.

Together with the other billerbeck companies in Germany, Hungary and Austria, billerbeck Schweiz AG forms the billerbeck group. Using the synergies within the group, we can guarantee an optimal use of raw materials and maximise efficient skills-sharing - to the benefit of our trading partners and customers.

We see ourselves as a fully-integrated, quality-orientated company, building on a closed value chain (research and development, production, sales and distribution, logistics, service). With our in-house sleep foundation, we systematically invest in sleep research, paving the way for products that increase your quality of life.

billerbeck Schweiz AG offers you a complete range of products to promote deep, restful sleep.

# Dauny®

## A great Swiss brand

In terms of material and workmanship, we make no compromises. Down and feathers products are produced in Switzerland and our strict quality controls are always according to Swiss criteria.

Dauny® offers the perfect bedding for all our customers' needs. These vary in terms of warmth requirements, humidity during the night, internal balance stability, sleep quality and skin sensitivity. Providing optimum solutions for all these requirements involves the use of different fillings that are always combined with the best covering materials. Finding the perfect combination of filling and covering material defines the fine art of duvet making.

## Guarantee

With Dauny® you are guaranteed to buy well!

### **billerbeck Schweiz AG – Those who sleep well, enjoy life.**

More than 100 years of experience and our comprehensive expertise are your guarantee of consistent high quality.

### **Sustainable bedding – tested and certified**

Quality controls and tests carried out by independent testing institutes ensure that we comply with our strict ecological, social and ethical standards along the entire supply chain - for high-quality bedding that you can enjoy with a clear conscience.

SCHLAF & GESUNDHEIT

### **billerbeck SLEEP AND HEALTH FOUNDATION**

billerbeck Schweiz AG is the only duvet and pillow manufacturer to systematically conduct active sleep research through its own foundation. The insights that we gain from this research are channelled into the development of our duvets and pillows – for greater well-being and a better quality of life.

## SWISS QUALITY

Duvets and pillows produced in Switzerland according to the highest quality standards

### Atelier Dauny®

A carefully selected team of experienced specialists create these masterpieces by hand in our Swiss atelier with loving care and attention using an intricate and traditional process.

### Eider Down

At the Dauny® atelier, the precious down is meticulously selected and cleaned through a precise refining process involving hours of loving handwork. For the cover, an exquisite fabric is chosen and carefully sewn by hand with the utmost care.

### Swiss Made

Our Swiss Made label guarantees that the duvets and pillows have been manufactured with great care and love at the production facility of billerbeck Schweiz AG in Fischbach-Göslikon, Switzerland. The Swiss Made label stands for high-quality materials and craftsmanship.

### Swiss Wash

Our Swiss Wash label guarantees that the down and feathers have been carefully washed, dried, disinfected, and sorted in our own production facility using fresh, high-quality Swiss spring water, adhering to the strictest hygienic standards. The washing process is carried out very gently to keep the valuable filling material especially clean and fluffy.

### DOWNPASS

As a Downpass certified company, we stand for ethically harvested down and feathers from agricultural livestock farming. Products bearing this label guarantee the exclusion of goods from live plucking and foie gras production as well as rearing controls. The supply chain is clear and fully traceable. For more information, visit [www.downpass.com](http://www.downpass.com).

### OEKO-TEX® MADE IN GREEN

Responsibly produced and tested for harmful substances: Textiles with the OEKO-TEX® MADE IN GREEN label stand for sustainability and social responsibility. These products are traceable and tested for harmful substances, ensuring better working conditions and a cleaner planet. Thanks to the QR code and unique product ID, you can see where and how the items were made. Choose transparency and sustainability – good for you and the environment.

### OEKO-TEX® STANDARD 100

The textile seal for reliable quality – day after day. From the yarn to the finished product, OEKO-TEX® sets standards for safety. Every item with the OEKO-TEX® STANDARD 100 label has passed strict laboratory tests for harmful substances. billerbeck products bearing this label for tested textiles demonstrate our commitment to product responsibility and consumer protection.

#### **NOMITE®, natural protection against dust mites**

Our down-proof fabric is so finely woven that it provides an effective barrier to prevent mites from entering the bedding. Down duvets are also recommended for those with a house dust allergy. For more information, visit [www.nomite.com](http://www.nomite.com).

#### **Hydrophile, absorbe l'humidité – puis la rejette**

The hydrophilic fabric used for our products absorbs moisture better, releases it out into the air quicker and thus improves the climate under the duvet.

#### **PERFORMANCE**

All products in this category offer intelligent additional benefits in the form of proactive climate management, positively influencing the comfort zone for optimal sleep enjoyment throughout the year.

#### **MOISTURE PERFORMANCE MANAGEMENT**

Greater wellness with your own restful feel-good sleep climate. Your first choice for an even temperature balance throughout the night.

#### **TEMPERATURE PERFORMANCE MANAGEMENT**

Not too warm, not too cold, just right. The first choice for consistent temperature balance throughout the night.

#### **OUTLAST®**

The revolutionary Outlast® temperature regulation concept, based on PCM (Phase Change Material) technology, absorbs excess heat and stores it. When it gets colder, this heat is released again to provide an ideal comfort temperature throughout the night.

Detailed information:

# DAUNY® – A GREAT SWISS BRAND

---

Create your own personal sleep oasis with our Dauny feel-good products. Our duvets and pillows are characterised by their choice materials and first-class finishing. They are produced in Switzerland according to the highest quality standards. With Dauny, greater comfort means more rest and relaxation for you. Those who sleep well, enjoy life.

## **New Products + Innovations**

Get a brief insight into our future range and our latest product innovations and range novelties:
