TEXTILE DESIGN SOFTWARE for Adobe® Illustrator® & Photoshop®

NEDGRAPHICS
FOR ADOBE®

SF — Sketch & Fill
for Adobe® Illustrator®

> Fast and easy 2D garment sketching in Illustrator

> Automatically create stitch lines

> Fill garments with fabrics, patterns and color swatches

> Streamline the creation of storyboards or presentations

DS — Design
for Adobe® Photoshop®

> Create raster-based repeats in straight, drop or shift layouts

> Reduce colors and use cleanup tools to eliminate stray pixels

> Work in layers and in new motifs while in indexed mode

> Create colorways and presentation files with exports that automate pitch sheets, swatches and screen separation

CL — Colorist
for Adobe® Illustrator®

> Recolor artwork in Illustrator to create multiple colorways from a single design

> Swap colors quickly and save the colorways you like

> Display colorways of different versions for presentations or printing

KT — Knit
for Adobe® Illustrator®

> Easily recolor your knit patterns

> Instant knit simulation

> Specialised knit design plugin for Illustrator

> Create knit patterns including Fair Isles, intarsia or custom stitch layouts

WE — Weave
for Adobe® Illustrator®

> Efficiently create woven patterns including plaids and complex dobby patterns

> Specialised woven fabric design plugin for Illustrator

> Easily recolor your woven patterns

RP — Repeat
for Adobe® Illustrator®

> Accelerate creation of repeat patterns in Illustrator or Photoshop

> Use straight, drop and shift layouts in vector or raster art

> Live preview of finished pattern
