ABOUT US

HRW Textiles fundamental objective of manufacturing is to produce high quality textile made-ups specializing in Bath Towels, Bar Mops and Institutional Towels, Kitchen Towels and Bathrobes. We encourage excellence with the efficiency level necessary to maintain its prestige, attract, develop and retain employees of the highest caliber, excel as the superior supplier within Pakistan and to continually improve its image in the international markets.

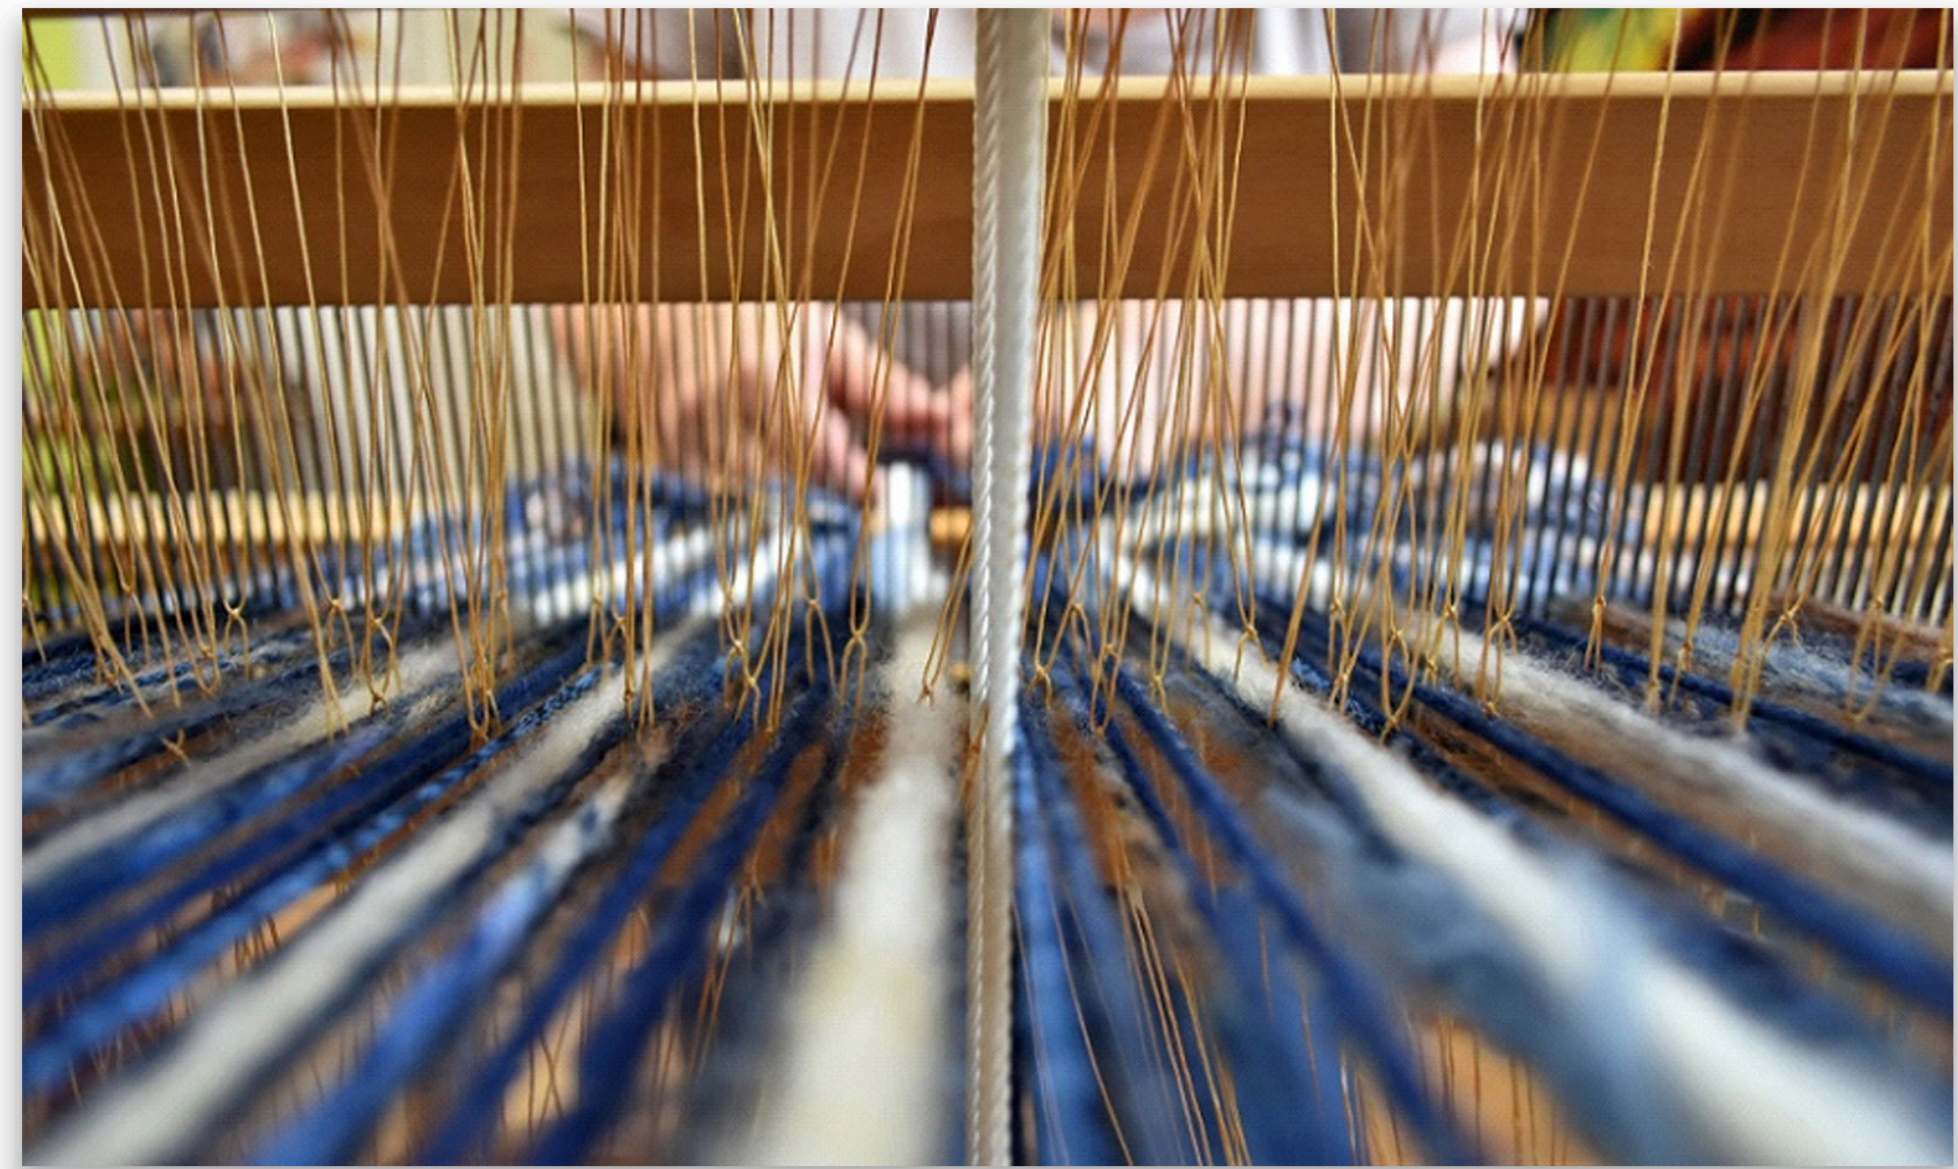

HRW Textiles is a dynamic group of companies characterized by its integrity to customers that have made it legendary as a great value of excellence in manufacturing of quality home textiles. It has structured a professional operation staff in which empowerment and sense of responsibility is the key to organizational development.

WEAVING

Our exceptional craftsmanship has made it possible for us to make a name alongside world class manufacturers and exporters. Backed with the latest weaving machineries and technologies, we have been proudly delivering high quality textile terry over a decade, paving the way to be the market leader in terry textile manufacturing through continued excellence and innovative products.

With 55 Power Looms, 11 Shuttle-less and 3 Air Jets, we weave around 550,000 lbs (250,000 KG) of Textile Made-ups every month and are ever increasing.

DYEING & PROCESSING

As with all other functions at HAJI RAFIUDDIN WALIUDDIN, highly qualified professionals manage the operations of dying process, leveraging their vast experience and understanding of the quality requirements of diverse market segments. Equipped with state-of-the-art machines we boast a wide range of dyed products including vat dyed, disperse reactive, disperse vat, fiber dyed & yarn dyed.

Upon the drying of fabric on modern loop dryers, beater bars are used to add impression to terry fabrics. The entire process is executed under constant examination; ensuring customer satisfaction at every step right from the absorption of colorant to the functional finishing touches.

With State of the High Temperature dyeing machines and Continuous tumbler dryers of we dye 595,000lbs (270,000kg) of Textile Made-ups every month.

CUTTING & STITCHING

We are equipped with the latest cutting and sewing machines that work efficiently and at a faster pace. In assistance with Juki, Brother Single Needle, Pegasus, a smooth flow of production is always ensured.

Our dedicated, quality control team ascertains that the quality of our products is top notch.

By fostering close relationship with our customers and vendors we are assuring standard and required quality of the products for over a decade

RING SPUN TOWELS

Our ring spun towels feature 100% Premium Long Staple Cotton making them elegant yet functional. Luxurious And Functional – The towels are designed to give out luxurious experience while ideally fulfilling needs in general cleaning or washing.

Soft and Absorbent – Our bathroom towels feel soft and delicate on the skin while the composition enables them to be highly absorbent and durable.

OEKO-TEX certified, meaning it includes no harmful substances or chemicals ensuring soft and absorbent for maximum comfort.

ZERO TWIST TOWELS

Our Premium Zero twist yarns provide a lush, smoother face. The yarns don't need to be spun or twisted for strength, translating to a softer feel next to your skin.

SOFT AND COMFORTABLE- Each towel is soft to the skin and provides plenty of warmth, all while remaining breathable and comfortable. The luxury and fluffy feel of the bath towels, wash cloths, and hand towels, will give the impression of hotel and spa level quality towels!

SUPER ABSORBENT AND QUICK DRY- Our Zero Towels are made of the highest quality cotton using a sophisticated spinning process leading to the zero-twist end result which wicks away moisture. Zero twist towels quickly dry, drying 20-25% faster compared to a conventional towel which makes the towels ultra-absorbent, while remaining lightweight for use in your bathroom or washroom!

OEKO-TEX certified, meaning it includes no harmful substances or chemicals ensuring soft and absorbent for maximum comfort.
