TONGKUN GROUP CO.,LTD

Tongkun Group is a large joint-stock listed company and vertical group company owns full industrial chain, integrating petroleum refining, polyester, spinning, texturing, weaving and dying. We are specialized in PTA, polyester, polyester filament and polyester fabrics.

TONGKUN GROUP CO.,LTD

● MAIN PRODUCTS

POLYESTER FILAMENT:POY, FDY, DTY, ITY, Middle Tenacity Yarn,
Composite Yarn, Air Covered Yan.

● TOTAL ASSETS

100,000,000,000(CNY)

● EMPLOYEES

40,000

● ANNUAL PRODUCTION AND PROCESSING

PETROLEUM REFINING

10,000,000 (MT)

POLYMERIZATION

13,000,000 (MT)

FILAMENT YARN

13,500,000 (MT)

PTA

10,200,000 (MT)

● EXPORT COUNTRIES

MORE THAN 60 COUNTRIES

South America, Europe,
the Middle East, South Africa,
South Korea, Vietnam,
and ect.

JIANGSU TONGKUN HENGYANG CHEMICAL FIBER CO.,LTD

ABOUT US

Jiangsu Tongkun Hengyang Chemical Fiber Co., Ltd. is a subsidiary of Tongkun Group Co., Ltd. It is located in Lingang Industrial Park, Gaoxu Town, Shuyang County, and integrates polyester, spinning, texturing, weaving, and printing and dyeing projects, truly realizing the full industry chain layout planning from "one drop of oil" to "one piece of cloth".

JIANGSU TONGKUN HENGYANG CHEMICAL FIBER CO.,LTD

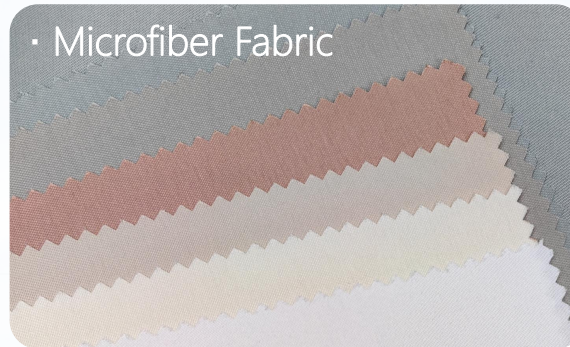

OUR MACHINES

Hengyang Weaving Workshop has a total of 1760 weaving machines, including 880 290 cam machines, 440 320 cam machines, and 440 320 electronic multi arm machines. 12 warp knitting machines, 5 automatic weaving machines, and 18 fabric inspection machines.

The products of Hengyang Workshop 1 are wide width home textile fabrics, and the main products are:

· Microfiber Fabric

· Twill

· Jacquard Fabric

· Down Proof

SUQIAN TONGKUN HONGYANG PRINTING&DYING CO.,LTD

Suqian Tongkun Hongyang Printing&Dyeing Co., Ltd is a subsidiary of Jiangsu Tongkun Hengyang Chemical Fiber Co., Ltd. of Tongkun Group. The project covers an area of 683 acres and plans to produce 700 million meters of green home textiles and clothing fabrics annually. Planned investment of 1 billion RMB. The printing and dyeing project plans 12 workshops, and the first phase has been put into operation on August 28, 2024.

Equipment Overview - Efficient, Intelligent, and Flexible Production Line

The printing and dyeing project adopts the most advanced energy-saving, efficient, and automated printing and dyeing production equipment at home and abroad, including low bath ratio dyeing tanks, high-efficiency energy-saving shaping machines, fully automatic auxiliary agents, dye weighing and distribution systems, imported fully automatic color matching systems, automatic drip systems, and printing fully automatic sizing systems. Adequate equipment and hardware have been prepared for the production of high-end textile products.

Equipped with advanced sewage treatment facilities, the discharge is in accordance with the highest requirement of the national standard, Class A standard. The planned reuse rate of reclaimed water is 70%.
