ABOUT US

Backed with more than 100 years of experience in the Coir industry, Karan Group has been recognized as the indisputable industry leader. Starting as Coir yarn spinners in the late 1800s, we presently own the largest integrated factory in Asia for weaving natural fiber floor coverings. Our factories are equipped with the latest yarn preparation and dyeing equipment, imported automatic shaft/jacquard looms and finishing equipment. We recruit and train the best weaving talent available. Our collection of woven Coir, Sisal & Jute floor coverings is exported to more than 100 countries. We are also the pioneers in Asia for the manufacture of Vinyl backed Coir mats/rolls. We have successfully maintained the balance between traditional craftsmanship and latest technology through out our journey. We still have the best craftsmen in the handloom industry working for us. That helps us to be the largest exporters of traditional, hand-woven coir mats, matting's & rugs from India.
