NATURAL FIBRE
KARAN
 MANUFACTURERS
 & EXPORTERS OF
 FLOOR COVERINGS
GROUP
DOOR MATS • RUGS • BROADLOOM

Backed with more than a century long tradition, Karan Group is widely recognized as the indisputable leader in the natural floor covering industry. Starting as coir yarn spinners in late 1800's, we presently own the largest integrated factory in Asia for weaving natural fibre floor coverings. Our factories are equipped with the latest yarn preparation and dyeing equipment, imported automatic shaft/jacquard looms and finishing equipment, supported by the industry's finest weaving talents. We are the pioneers in Asia for the manufacture of vinyl backed coir mats/rolls. Addition of the fully automatic latex backing and flocking machines during 2001, once again, demonstrates our leadership position in technology upgradation within the natural floor covering industry. Our continuing commitment to design and product development is evident by the extended in-house design studio which is supported by inputs from the leading home furnishing designers worldwide. Consistently maintaining a balance between traditional craftsmanship and sophisticated technology, we remain India's largest producers of natural fibre floor coverings.

Imperial Mats

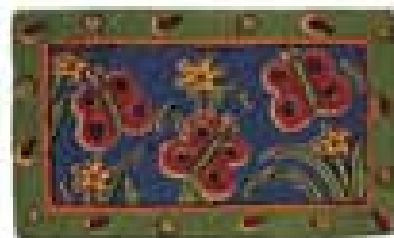

- Thick heavy-duty Coir Mats - up to 38 mm(1.5") thick.
- Dense hand-tufted pile - ideal for printed designs.
- Inlaid versions available in a range of Classic designs.
