

ANHUI COMFY TOUCH LTD

Keep Touch · Keep Comfy

ABOUT US

20+

Patented equipment

Comfytouch production workshop covers around 8000 m², with 20 patented equipment and technologies, 100 skillful technical workers and a production capacity of 2000 pcs weighted blankets per day.

40+

Skilled worker

Comfytouch adhered to the fine production concept of “making high-quality gravity blanket” and kept improving in the aspects of stitch pitch using Multi-needle quilting technology (1cm 3.5stitches, 3cm 10 stitches), small pocket sizes (10*10cm, 8*8cm 5*5cm) to solve the issues of glass beads running.

8000 m²

The total area of the plant is

Comfytouch developed beads spilling controlled by computer to solve the uneven issues scattered by hands.

2000 pcs

Daily production

Comfytouch is devoting to weighted blanket industry to make customers fall in love with the touch of our products and our partners keep in touch with us comfortably to achieve our core value “KEEP TOUCH KEEP COMFY”.

Great sleep, Simplified

What is weighted blanket ?

Weighted blankets are heavy blankets used for therapeutic purposes such as relieving anxiety and stress. Usually between 5 and 30 pounds, weighted blankets are filled with plastic pellets or glass beads. The added weight is designed to produce a calming effect when placed on the body.

What' s the benefits of weighted blanket ?

1. Provide Comfort and Security
2. Reduces Heart Rate & Soothes Panic Disorder
3. Improve Sleep Quality
4. Calm The Nervous System
5. Ease Stress and Soothe Anxiety
6. Improves Daytime Social Interactions

NEW TECHNOLOGY 56 needles quilting

OLD TECHNOLOGY single needle quilting

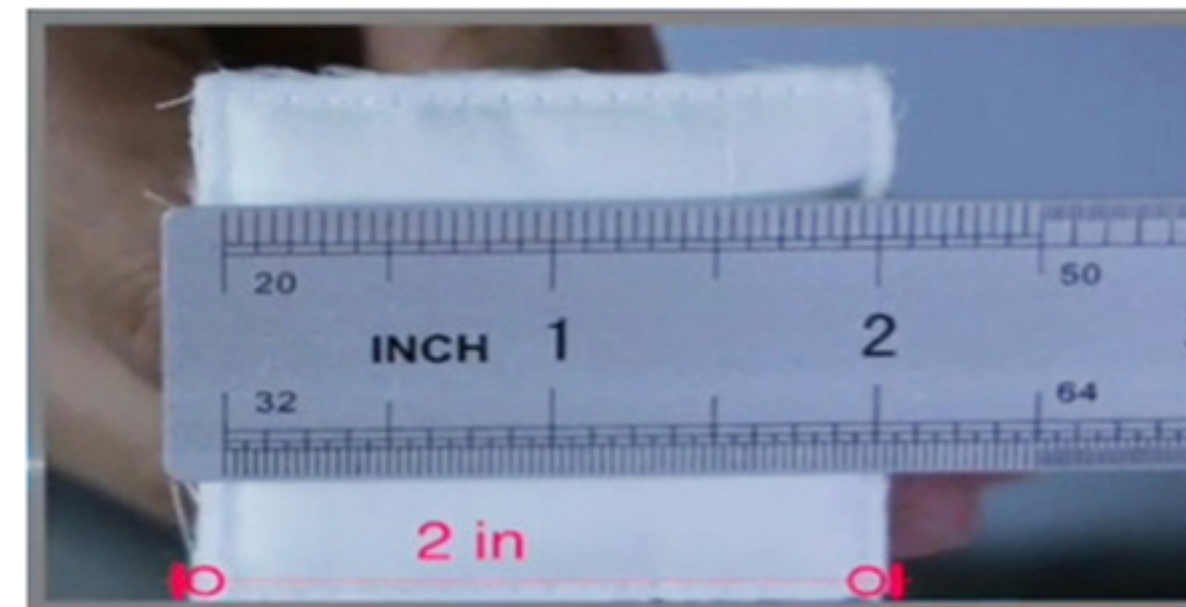

Our Advantages

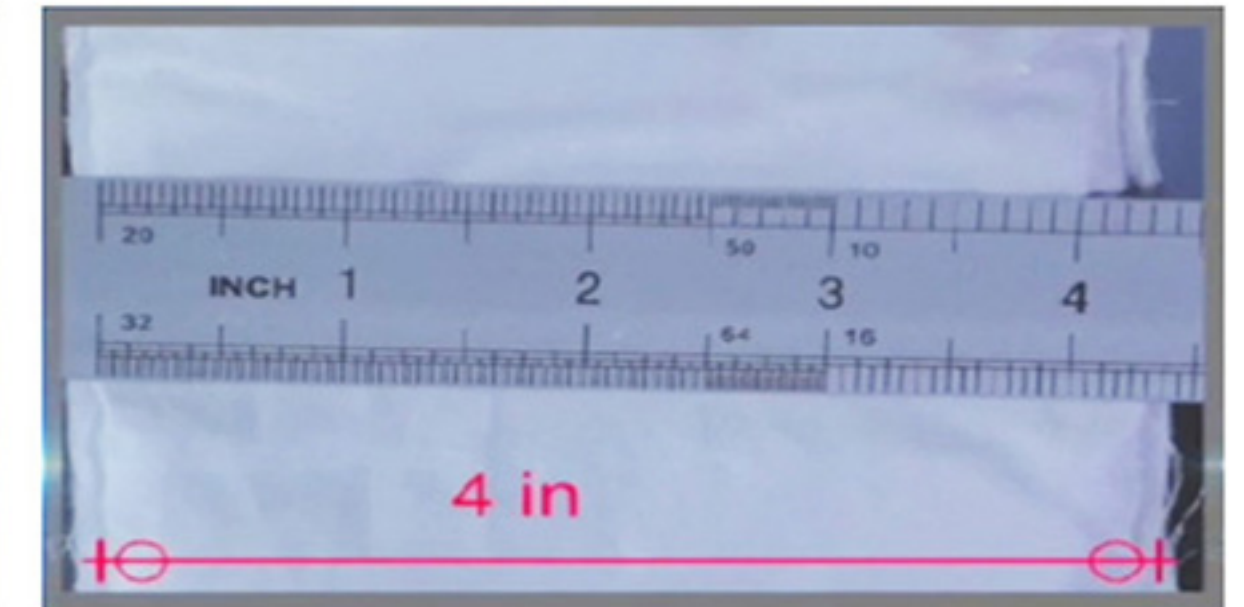

Small Pocket

VS

Big Pocket

The smallest square can reach 5*5cm

Original small pocket technology, not easy to run beads.
Gravity distribution is more even.
