CONTACT US..... Page 42

Hello,

For more than a decade, Spring Hometextile has worked ceaselessly to further our research and developing innovative bedding products to improve sleep experience.

This year, we are proud to introduce featured products to support your business to the next level. These innovations are staying close to consumer trends, to make your business development easier.

As always, we back our products with strict quality control system and customer service. From the manufacturing floor to our sales managers, we set the bar high because we know that you need more than a high-quality manufacturer, you need a partner.

- ◆ Our fabric and coverings are medically tested to ensure they pose no risk to the body and skin.
- ◆ Our fabrics and coverings are free from bleaching.
- ◆ Our Materials subject to stringent hazardous substance check.
- ◆ Products categorized as “class 1” by Oeko Test® standard 100 and other testing authorities.
- ◆ We are under audit by Sedex and BSCI.

SECTION 01: PILLOWS & PROTECTORS

FILLED PRODUCTS ADVANCED FEATURES

EXTRA COOLING EFFECT

SmartKool®

Smartkool® fabric derives its cooling function from its special cooling polymer yarn that mixing with MICA, rapidly dissipating the body's excessive heat, accelerating moisture evaporation.

BALANCE SLEEP TEMPERATURE

Springcell®

Springcell™ temperature regulating fiber comes with Phase Change Material (PCM), absorb and release heat to adjust sleep micro temperature.

EMBOSS FABRIC DESIGN

Smartouch™

Smartouch™ is 3D embossed design which creates space for air-flow on product surface.

FREE BREATHABLE

Free breathable fabrics and embossed fabrics creates better space for air-flow.

FLAME RETARDANT

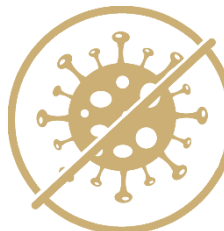

Our toppers can incorporate flame retardant treatment base on customer needs.

ALOE VERA

Aloe vera additives make the fabric have excellent moisture absorption and moisture retention and anti-static effects, and also have antibacterial properties.**Classic.**

Anti-virus

Our products have a good anti-virus effect and support anti-virus test reports.

Quilted, Classic

GRS

GRS is applicable to products with a recycled content of 20% or more and any accepted recycled materials.

BCI cotton

Cotton bedding are all certified by BCI.
Classic , Quilted, Sandwich, Encasement
