## Inherently Flame Retardant

Flame retardant fabric is often made to actively stop fire from spreading further. These are often woven from flame resistant yarns from the beginning. Inherently Flame Retardant (FR in yarn) fabrics are most welcomed by our clients. The highest FR test standard can reach to M1

## Products can pass the following test standard:

CHINA: GB 20286-2006

UK: BS5852, Bs5438

USA: NFPA701, CA117

FRANCE: NFP92-503 M1

GERMANY: DIN4102 B1

JAPAN: JIS-L-1091
