

PURE & PROTECT®
WALLPAPER FOR HEALTHY SPACES

Perfect Harmony

Perfect Harmony x Pure&Protect

'Perfect Harmony' is the second GrandecoBoutique collection that contributes to a healthier living environment under the concept 'Pure & Protect'.

Design and sustainability go side by side.

The timeless designs form an eco-chic collection of stylish floral and foliage prints and soft plain colours that brighten up both modern and classic interiors.

Combined with wood or linen textiles this wallpaper is ideal for a natural and luxurious look.

Pure&Protect

Pure & Protect is seen as more than just a virus-killing coating.

With this concept, we envision social benefits, sustainable investments/products/services, ecological progress, (pure ingredients, harmless products, protective towards humans and the environment) etc.

This way Grandeco takes even more steps in our sustainable story, to stand firm in our shoes and to meet consumer demands.

Therefor we launched Perfect Harmony x Pure & Protect, the exological collection.

Exceptional qualities

- ✓ Produced with water-based inks and coating systems
- ✓ PVC-free collection, consisting on one hand of a non-woven ecodeco carrier with a PVC-free layer, and on the other hand, a carrier with direct print without PVC
- ✓ FSC-certified
- ✓ Energy-efficiently produced
- ✓ The ink residues are recycled and reused

100% recyclable

PURE & PROTECT®
WALLCOVERING FOR HEALTHY SPACES

There is no clear definition on what is recyclable. It depends on how the customer interprets the concept. If you can put it in the paper waste bin for example, like our direct print on non-woven, it is recyclable.

Why did we choose two different carriers:

We wanted to provide two techniques to extend the portfolio:

- ✓ Ecodeco, with more structure (pvc-look).
- ✓ Direct print on non-woven with pvc-free paste, without structure.
