---	---	----------------------------	--

The application for certification was submitted using the relevant forms issued for this purpose.

The applicant enclosed the declaration of conformity and agreed to the terms of use.

The originals of all necessary documents have been signed with a legally binding signature.

The orderer confirmed that no biological active product is used.

Further the orderer confirmed that no flame retardant product is used.

The copy/copies of Oeko-Tex® certificate/s (20.HIN.20825, 10.HIN.83947, 19.HIN.89200, 17149, 17.HIN.27701, 20210K0076, 08.HIN.61667, ZHYO 101537, HKX 19367) for the products in use was/were enclosed with the application.

The following certificate/s is/are no longer valid:

· 20.HIN.20825, 10.HIN.83947, 19.HIN.89200, 17149, 17.HIN.27701, 08.HIN.61667, HKX 19367

The orderer needs to contact his supplier/s in order to obtain a copy of the new and valid certificate/s.

The application was made for the following article group:

Woven pillow and pillow cover, duvet and duvet cover, table cover, bed sheet, quilt, cushion and cushion cover, pot holder, comforter, shower curtain, throw, napkin, apron, kitchen towel, seat pad and chair pad, table cover, runner, mat, curtain mattress, floor cushions, made of 100 % cotton, 100 % viscose, 100 % linen and their blends, in raw white, grey, bleached white, reactive yarn dyed, piece dyed as well as pigment printed (cotton only) with softener finishing including accessories (sewing thread, polyester fibre fillings, woven and printed labels, zippers); produced by materials certified according to STANDARD 100 by OEKO-TEX®.

The four product categories specified in STANDARD 100 by OEKO-TEX® are described as follows:

Product-class	Definition
I	Products for babies Products for babies in context with this standard are all articles, basic materials and accessories, which are provided for the production of articles for babies and children up to 36 months.
II	Products with direct contact to skin Skin contact articles are those which are worn with a large part of their surface in direct contact with the skin (e.g. blouses, shirts, underwear etc.).
III	Products without direct contact to skin No skin contact articles are those which are worn with only a little part of their surface in direct contact with the skin (e.g. stuffings, linings etc.).
IV	Decoration material Decoration material in context with this standard are all articles including initial products and accessories which are used for decoration such as table clothes, wall coverings, furnishing fabrics and curtains, upholstery fabrics and floor coverings.

According to the information provided by the orderer and to the specified area of use, product class II is applicable.

TEST RESULT/S

Tests were carried out in accordance with STANDARD 100 by OEKO-TEX® Annex 4.

The test results are given in the charts of report number 21.0006126.

CONCLUSION

The material for which the certification was applied fulfils the specific requirements for product class II of STANDARD 100 by OEKO-TEX® Annex 4.

The certification of the following article group is approved:

Woven pillow and pillow cover, duvet and duvet cover, table cover, bed sheet, quilt, cushion and cushion cover, pot holder, comforter, shower curtain, throw, napkin, apron, kitchen towel, seat pad and chair pad, table cover, runner, mat, curtain mattress, floor cushions, made of 100 % cotton, 100 % viscose, 100 % linen and their blends, in raw white, grey, bleached white, reactive yarn dyed, piece dyed as well as pigment printed (cotton only) with softener finishing including accessories (sewing thread, polyester fibre fillings, woven and printed labels, zippers); produced by materials certified according to STANDARD 100 by OEKO-TEX®.

Each holder of certificate has signed for the quality of his articles on his own responsibility. This is in accordance with the given declaration of conformity. He is committed to ensure this by suitable and sufficient spot checks. This commitment includes the quality of bought materials. In the case of delegating parts of this quality assurance to others the certifying body must be fully acquainted (see point 4 "Conformity declaration").

Oeko-Tex® is authorized to carry out spot checks in order to inspect the certified goods. The certificate holder will receive a separate test report with the results of these inspections. If the spot checks reveal a deviation from the threshold values, additional tests will have to be carried out. The relevant costs will be charged to the certificate holder.

The applicant is responsible for checking the validity of the certificates issued to his suppliers.

If the term of validity of these certificates expires within the term of validity of the applicant's certificate, he is obliged to request updated or extended certificates from his suppliers.

Copies of updated certificates from suppliers should be presented as proof and for documentation purposes under the test number of the applicant's certificate.

The current version of STANDARD 100 by OEKO-TEX® is edition 03/2021. It can be downloaded directly from the Oeko-Tex® Homepage (<http://www.oeko-tex.com>).
