

La industria textil está avanzando hacia una nueva era más ecológica y respetuosa con el medio ambiente. Bajo el lema Eco&Free, Alonso Mercader ofrece productos de alta calidad usando materiales libres de ftalatos y sin ningún químico dañino para la salud.

Evolucionando con las exigencias de nuestros clientes y comprometidos con el planeta, desarrollamos nuestros productos utilizando procesos de fabricación que reducen el consumo de agua, de energía y el nivel de contaminación.

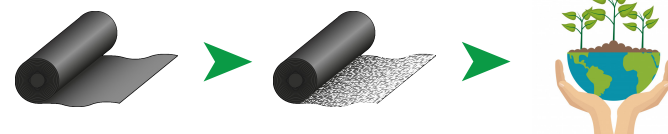

High System PU Free DMF (HSPU): Producción por sistema de poliuretano reactivo que nos diferencia del resto del mercado con una reacción química única e inmediata en los cabezales de recubrimiento.

High System PU Free DMF (HSPU): Reactive Polyurethane production system unique to us in the industry with a chemical reaction that takes place in the covering nozzle.

- Poliuretano-Eco Friendly 100% sólido sin disolventes: Sin uso de DMF, tolueno ni acetona. Cumple los standards REACH.
- Solid solvent-free 100% Polyurethane-Eco Friendly: DMF-free, Toluene-free and Acetone-free. Complying with REACH standards.
- Poco consumo de energía y agua, baja temperatura y ausencia de humos. Low energy and water consumption, low temperature and eliminating harmful smoke emissions.
- 10 años de anti-hidrólisis: muy superior a los coagulados convencionales. 10 years anti-hydrolysis guarantee: highly superior to the old coagulates.
- Precio muy competitivo respecto a los coagulados de nivel alto. Very competitive price compared to high quality coagulates.
- Alta resistencia a la abrasión y el arañazo: superior a los 200.000 ciclos Martindale. High scratching and rubbing resistance: with over 200.000 Martindale Cycles.
- Facilidad para la customización: Ignifugación, tratamiento antibacteriano, EasyClean, etc. Easily customizable in regards with: Flame Retardant, Antimicrobial treatments, EasyClean, etc.

Grain BioDG se convierte en el primer recubrimiento biodegradable del mercado. Utilizando el mismo Poliuretano-Eco Friendly y una base 100% algodón, conseguimos un producto biodegradable que desaparece tras su uso sin demandar energía para su reciclado.

Grain BioDG becomes the first biodegradable coating on the market. Using the same Polyurethane-Eco Friendly and a 100% cotton base, we achieve a biodegradable product that disappears after use without requiring energy for recycling.

- Composición biodegradable Biodegradable composition
- Soporte 100% algodón 100% cotton backing
- Ignífugo Fire retardant
- Resistencia a la hidrólisis (>10 años) Hydrolysis resistance (>10 years)

Textile industry is gathering to an ecological age becomes more environmentally friendly. Under the slogan Eco&Free, Alonso Mercader offers high-quality products using materials free of Phthalates and any of toxic chemicals would be harmful to health.

We are committed to keeping our customers demands and the defense of the environment of our planet, manufacturing our products in positive environmental impact savings in water, energy and chemical products choosing a more sustainable option.

Aplicaciones - Uses

Mantenimiento y Limpieza - Care and Cleaning

Para mantener el sofá como nuevo, se recomienda limpiarlo de forma regular con un paño seco o humedecido en agua templada o pasando el aspirador a potencia suave. Protegerlo de la exposición directa al sol y de las fuentes de calor e intentar evitar el contacto con la humedad.

Es importante actuar sobre las manchas de forma inmediata para que no se absorban. Para manchas persistentes como la tinta de bolígrafo o rotuladores utilizar un paño humedecido en agua templada y un poco de alcohol, vinagre blanco o algodón con leche desmaquillante. Para manchas clásicas como tomate, chocolate, café, aceite y refrescos, utilizar un paño húmedo con jabón PH neutro.

Nunca frote ni rasque la mancha, ni la presione agresivamente.

Evitar disolventes con cloro o alcohol, aerosoles, limpiacristales, betunes, ceras y cualquier producto con contenido químico. Tampoco se recomiendan las toallitas de bebé o las desmaquillantes.

No aplicar espuma seca, ya que alteraría el tratamiento de protección.

In order to keep your upholstery in the best condition possible we recommend periodical cleaning with a dry cloth or with a damp cloth as well as using a vacuum cleaner at mid power. Keep away from direct sun exposure and heat sources and avoid contact with moisture.

It is very important to remove the stains as soon as possible to avoid penetration of the stains. For the removal of stains that are hard to clean, such as pens or markers, we advise the use of a damp cloth with rubbing alcohol, white vinegar or cotton pads with makeup removal. For daily use stains, such as tomato sauce, chocolate, coffee, oil or soft drinks, we advise the use of neutral PH soap.

Never rub or scratch the stain, or press it aggressively.

Avoid solvents with chlorine or alcohol, aerosols, window cleaners, bitumens, waxes and any product with chemical content. Baby wipes or make-up removers are not recommended either.

Do not apply dry foam, as it would alter the protection treatment.
