

Giovanni Bottigelli S.p.A.
Tovaglie dal 1935

Proudly producing since 1935

Giovanni Bottigelli S.p.A. is the biggest **italian producer** of oilcloths and PVC home accessories.

The Bottigelli family has been working plastic for **four generations** and since the 50's is specialized in the production of calendered PVC.

Thanks to our broad experience in the **home textiles industry**, today the development of new products and designs is our strongest point. We offer one of the **wider collections of vinyl tablecloths** on the market, that we renew every year with at least 30 new designs and many news among the accessories.

We know very well how important it is **to give service**, so we invest a lot in our warehouse to guarantee flexible, constant and **fast delivery** service.

Wondertex collection

Wondertex is our collection of oilcloths in roll and consists of more than 200 codes, updated several times during the year. The design range includes all the big classics and the **latest trends** on the market, with a special focus on Christmas designs.

Roll dimensions: width 120, 140 and 160 cm, length 20 mt.

We offer our customers the chance of buying our oilcloths also in the **ready made version**, with or without plastic hook. It's possible to purchase directly from our selected **stock** or require a special production choosing **customized designs and sizes**.

Our Dolce Vita leaflet can be customized as well, according to the requests.

Customized products

As producers, we are able to vary the quality, thickness, weight and materials of all our products. Apart from Wondertex, we also offer a wide range of other qualities of PVC tablecloths (you can ask more information to our sales team).

Crystal collection

Pergola

Pergola is our collection of printed crystals, available in about fifteen of our designs. It can be used both as a table cover and as a **decoration and protection** on top of fabric tablecloths.

The rolls are all wrapped with tissue paper and available in the dimension 140 cm width per 30 mt lenght.

Crystal in roll

We produce a wide range of semitransparent, transparent and superglass PVC crystals. Thicknesses vary from **0,07 mm up to 1,5 mm**.

The dimensions and widths of the rolls vary according to the thickness. It's possible to purchase the crystal wrapped with tissue paper.

Embossed crystals

The **embossing process** gives special effects and **play of lights** to PVC foils. Our embossed crystals collection is available both in the plain and glittered version.

Roll dimensions: width 137 cm and lenght 20 mt.

Soft collection

New Soft is our collection of soft PVC tablecloths, that guarantees an **absolute protection** for the table.

It's composed by a calendered PVC foil laminated with expanded PVC, that provides softness and thickness.

Roll dimensions: width 140 cm, lenght 20 mt.

Soft place mats are an article that we developed and created in 2017. They are extremely **easy to clean**, guarantee a **perfect grip** and a table **protection superior** than any other similar product on the market. The dimension of the single piece is 30x44 cm.

Display and packaging

A great product needs a great introduction.

For this reason we are supplying our customers with **customized and convenient display solutions**. For example our display racks for rolls have space for 18 rolls and are already equipped with wheels and a movable cutter. Find more display options on our catalogue!

We are able to offer a **tailor made presentation** of our products according to the customers needs.

We can customize **leaflets and stickers** adding **EAN codes**, your logo and information in **your language**.
