MADE IN GREEN by OEKO-TEX® is a traceable product label for all kinds of textiles (e.g. garments, home textiles) and leather products (e.g. garments, finished and semi-finished leathers) including non-textile/leather components such as accessories. The MADE IN GREEN label verifies that an article has been tested for harmful substances. This is carried out through certification in accordance with **STANDARD 100 by OEKO-TEX®** or LEATHER STANDARD by OEKO-TEX®.

It also guarantees that the textile or leather product has been manufactured using sustainable processes under socially responsible working conditions. This is carried out through certification in accordance with **STeP by OEKO-TEX®**. We can use a unique product ID on the label to trace the countries and production facilities in which the labelled article was produced.

STeP by OEKO-TEX® is an independent certification system for brands, retailers and manufacturers from the textile and leather industry. Certification is suitable for production facilities at all processing stages who want to communicate their environmental measures externally in a credible and transparent way. All textile companies can be certified.

### Global Security Verification

This document verifies that the named facility has voluntarily participated in the Global Security Verification program. A comprehensive supply chain security verification of the named facility was conducted by an independent third-party to determine appropriate minimum security measures, as published by the U.S. Bureau of Customs and Border Protection and other international mutually recognized supply chain security programs, are implemented and maintained throughout the facility.

**Specifically, this verification focused on existing processes, procedures and infrastructure related to the following areas of supply chain security:**

1. Security Vision and Responsibility
2. Risk Assessment
3. Business Partner Security
4. Cybersecurity
5. Conveyance and Instruments of International Traffic Security
6. Seal Security
7. Procedural Security
8. Agricultural Security
9. Physical Access Controls
10. Physical Security
11. Personnel Security

Business Assurance, Intertek

chain security initiatives, including C-TPAT (Customs Trade Partnership Against Terrorism), PIP (Partners in Protection) and AEO (Authorized Economic Operators).

party assessment of the named facility was performed using a process driven approach which incorporates a weighted and scored data collection instrument to provide objective results on the facility's level of adherence to program standards. This document should not be relied upon as a demonstration of compliance beyond the expiry date. Periodic evaluations of the facility's ongoing processes should be conducted based on risk, to ensure sustaining adherence to program standards. The Achievement Award does not certify, confirm or imply and or exempt the clients from: a) Their legal obligations in compliance with any government, industry regulations or standards, b) The quality of any specific products and services produced or delivered by the facility. The Facility or Supplier remains solely liable for legal compliance to any laws, regulations and non-compliance relating to systems, processes or product defects.

The Customs-Trade Partnership Against Terrorism ( C-TPAT ) is a voluntary supply-chain security program led by U.S. Customs and Border Protection focused on improving the security of private companies' supply chains with respect to terrorism. Through this program, CBP works with the trade community to strengthen international supply chains and improve United States border security
