ERTEKS

• Historical know-how to manufacture terry fabrics; Denizli managed to export globally the goods are produced idiosyncratic quality.

• Production is a detailed process and by time Denizli gained the experience to meet high quality standards of Europe and USA.

• As ERTEKS, we are in terry manufacturing since 1994, and with improving experience we produce towels, bathrobes, throws and blankets using best 100% cotton yarns. Also a wide range of yarns, from bamboo to tencel are used if there is a demand.

• Customer satisfaction is always prior to us, so we manufacture the goods, taking consideration of full customer needs. We give importance firstly to human, as a result, our staff, clients and potential customers are the most valuable assets.

• We are in global competition for years, and managed to build a wide commerce network. We export our goods primarily to Europe and USA, and always open to make bussiness all around the world. In this commerce competition, we combined the unique designs, high production quality standards with quick and correct customer response. When there is a demand please do not hesitate to contact us.
