WHO WE ARE

Founded in 2010, House Covers Industries has become one of the largest blanket, flannel, and carpet manufacturers in Egypt - and an established exporter in 16 countries worldwide. With a production capacity of 50 tons per day, our 75,000 SQM factory is staffed by a team of 1,250 dedicated employees.

Our three brands, Golden Moon, Golden House and Golden Carpets, offer a wide variety of colours and styles made from the softest materials to suit the scale, needs and budgets of your business. Our flannels and blankets come in both single and double layers, while our carpets come in several weights for you to choose from.

More than maintaining the affordability and quality of our premium production process, we hope to continuously innovate and improve while prioritizing our people and the environment.

The background of the image features a soft-focus arrangement of home textiles. In the upper left, two vibrant pink chrysanthemum flowers with green leaves are positioned. To the right, a corner of a pink blanket with a thick, textured knit pattern is visible. In the lower left, a cream-colored blanket with a fringed edge is partially shown. The central text is overlaid on a plain white rectangular area.

Our Blankets & Flannels

Made from 100% Microfiber Polyester yarns, our blankets and flannels are available in an array of vibrant colours and patterns. Every blanket or flannel is brushed multiple times to ensure it is velvety soft to the touch and has a denser and more durable weave than others in the market. The materials we use are free from toxic or harmful chemicals so that your customers can enjoy the coziness of our products without any sensitivity or irritation.

Baby Blankets

Our delicate blankets are safe and gentle on the skin of babies and newborns. It provides safety, warmth, and comfort without being bulky, ensuring better sleep quality for your baby throughout the night. Available in different designs, colours, and sizes.
