## Capacity of Terry Towel Division

Spinning : We have spinning in-house can easily handle up to 2 Millions lbs/month Towel sales .

Weaving : we commit in market weaving shuttles/Air Jet looms with capacity 1.5Millions lbs/month.

Dyeing : For dyeing we installed our own dye house facilities with 1.5 Millions lbs/month capacity where 60% capacity already installed and Operational, rest will end June-22.

Finishing : We have a wide range of dyeing facilities including reactive , vat, disperse & yarn dyeing. The company is also equipped with the facility of antimicrobial process. We have recently added brand new MCS Soft-flow, Pentek Tumblers / finishing machines as well thus adding value to our dyeing unit.

Stitching : Longitude Hemming Machines as per the International Standards and accurate dimensions,  
For stitching we plan 2 Millions lbs/month capacity in house.
