REBEL<sup>®</sup> OF STYLES<sup>®</sup>

Our UltraWood collection now includes a new addition - the UltraWood Teak Firenze XL. This is our first product designed for both indoor and outdoor use. It features a reinforcing net on the back and a specialized glue suitable for outdoor applications.

For the best outdoor installation, we recommend using wall cladding that is suitable for both indoor and outdoor use. The installation process is slightly different for outdoor use, but it remains a DIY-friendly project.

# UltraSound Collection

Natural stone has some big limitations: it is restricted in color, shape, texture and volume to what can be found in nature. Our manufactured lightweight concrete stone veneer has none of such limitations. Every piece of stone veneer is tailor made designed and then cast from special designed molds, which guarantee the perfection of the desired color and texture. Whether you're creating a traditional stone fireplace or a modern, sleek manufactured stone wall in your garden outside, concrete stone veneer is an ideal solution.
