

CINTAS PARA CORTINAS

CURTAIN TAPES

NUESTRA HISTORIA

En CINPASA llevamos más de sesenta años creando cintas que transforman la forma de confeccionar cortinas. Desde que en 1961 desarrollamos nuestras primeras cintas fruncidoras, hemos impulsado avances técnicos, registrado patentes propias y definido nuevos estándares en el sector.

Fuimos pioneros en sistemas de plisado automático, y con el tiempo ampliamos nuestra gama con soluciones como Onda Perfecta o Pinch Pleat, adaptadas a todo tipo de requerimientos técnicos y estéticos.

Pero si algo nos ha definido siempre es nuestra capacidad de escuchar. Escuchar a quienes pedían algo más que un producto: buscaban confianza, precisión y una respuesta real. Y ahí es donde seguimos marcando la diferencia.

OUR STORY

At CINPASA, we've spent over sixty years creating tapes that redefine how curtains are made. Since developing our first heading tapes in 1961, we've driven technical innovation, secured proprietary patents and helped set new standards in the industry.

We pioneered automatic gathering systems and expanded our range with solutions like Perfect Wave and Pinch Pleat, tailored to meet every technical and aesthetic demand.

But what has always defined us is our ability to listen. To those who asked for more than just a product—they were looking for trust, precision, and a real response. That's where we continue to make the difference.
