

PRESS INFORMATION

The Scent of Summer

If only everything were as simple as dreaming away the summer with the SENTIMENTALS EASY scented candle collection from ENGELS Kerzen. The four available variants seduce with their fragrance and design in equal measure. The fine, fresh scents Pure Sun, Ocean View, Summer Night and Oriental Breeze let summer literally waft around our noses, because the balanced scent compositions are - as the names already reveal - inspired by the typical scents of summer. The satin-finished, high-quality candle glass is available in the colours Koralle, Aqua, Taupe and Wald. The glass is nine cm high with a diameter of 8 cm and is closed with a high-quality paper lid, so that no scent escapes until the candle is lit for the first time.

The vegan rapeseed wax used for SENTIMENTALS EASY is a renewable raw material and supports the idea of sustainability, as does the option of using the jar for storage or as a vase after use. By the way: the crystalline structures on the wax surface are a natural property of this material.

The SENTIMENTALS EASY SOMMER are available at an RRP of 9.90 euros in selected specialist shops as well as in high-quality department stores.

The scent of winter

If it smells temptingly like biscuits, perhaps that comes from the MAMAS COOKIES scented candle from the SENTIMENTALS EASY collection by ENGELS KERZEN. With a vanilla base, this scented candle exudes a sweet, creamy fragrance that is - we promise! - calorie-free and can be enjoyed without restraint. If you like to spend your time walking in the forest, you can bring the typical forest scent home with the MISTY FOREST candle. Fir balsam, cedarwood and amber are the base, and are combined with sage, lavender and mint in the heart note and the scent of leaves and pines as top notes. WINTER GLOW, on the other hand, seduces with a fragrance that immediately catapults us into the Christmas season. The base with tonka bean, vanilla and musk is harmoniously coordinated with the spicy top note that brings in mandarin and pepper as components, in combination with the heart note that contributes the scent of resin, plum and sage. Things get really Christmassy when you are captured by the scent of the HOME OF CHRISTMAS candle. Here, apple, pear, peach and orange as top notes and cinnamon, nutmeg and coconut as heart notes meet vanilla as the base. The candlelight and anticipation of Christmas will warm your heart.

The satin-finished, high-quality candle glass is available in the colours Burgunder, Kiesel, Anthrazit and Fichte, depending on the fragrance. The jar is nine cm high and has an 8 cm diameter; it is sealed with a high-quality paper lid so that no scent escapes until the candle is lit for the first time. The vegan rapeseed wax used for SENTIMENTALS EASY is a renewable raw material and supports the idea of sustainability, as does the option of using the jar for storage or as a vase after use. By the way: the crystalline structures on the wax surface are a natural property of this material.

The SENTIMENTALS EASY WINTER are available at an RRP of 9.90 euros in selected specialist shops as well as in high-quality department stores.

The Scent of Emotion

The sense of smell is something very special; it is the only one of our senses that is directly connected to the part of our brain that is responsible for emotions and memories. Smells appeal to our senses and touch our heart, completely without filters. The candle manufacturer ENGELS KERZEN has given this wonderful ability of our body a new stage, because the balanced scent compositions of the new SENTIMENTALS scented candle collection exude a calming and subtle scent, and have an invigorating and also energetic effect or put us in a relaxed atmosphere that invites us to dream, depending on the version. The five fragrances in the candle collection are designed to awaken the most beautiful memories and feelings, giving us a sense of security that is often forgotten these days: strong CEDARWOOD seduces with a dark, slightly spicy scent and gives a sense of security. JASMINE plays gently with honeyed, sweetly floral notes and takes us on a sensual journey. ROSE is the beguiling scent that reminds us of a summer walk and the first great love. PATCHOULI grounds you with every breath of the unmistakable scent, of a needle-covered forest floor in the early morning. TEA is an invigorating blend of fresh and tart components whose composition harmonises the senses and the heart. But it is not only the sense of smell that is positively stimulated, for the new SENTIMENTALS are also a sight to behold. The design of the new glasses is as gentle and elegant as the fragrances. Thin-walled and elegant, with a warm off-white lacquer finish on the outside, they go with any interior style, from modern to romantic, from classic to vintage, just like the fragrances in the collection. The wooden lid veneered with real oak closes the glass securely thanks to its silicone ring and turns the scented candle into a fragrance safe when closed. In this way, the scents and also the memories are optimally protected. And when it's time for a new scent, the glass can be reused without any problems because the label can be removed without leaving any residue. This means that the former candle jar can quickly become a jewellery box or a decorative container for cotton pads. Close your eyes, enjoy the fragrance and experience positive moments - that is the new SENTIMENTALS scented candle collection.

Sommerfrische

Four colours, four scents - CLARA with pastel shades and fine, fresh scents are the ingredients for heavenly summer dreams by candlelight. The satin-finished, high-quality candle jar with a flat glass rim has a transparent lid and protects the scented candle until it is used for the first time. Pure rapeseed wax - a regionally renewable raw material - makes this summery candle a special eye-catcher in addition to its fine fragrances and colours. CLARA is available at an RRP of €14.30 in selected specialist shops and at www.engels-kerzen.de.
