*High Quality, Durable Product
for your Business!*

a world of
possibilities

**a world of
possibilities**

In order to celebrate over a decade of history, we are expanding the portfolio, offering practical solutions to our customer's everyday problems.

Our goal is to make our customer's everyday a lot easier, by producing, and delivering, the best utensils for foodservice, with the most resistant, versatile and beautiful materials, offering the best cost-benefit ratio in the market.

Horeca Line

Vem sought inspiration in the most renowned branches of gastronomy to develop products thinking about the needs of chefs and large kitchens, in the best solutions, adding refinement and sophistication to the presentation of food.

The Horeca Line starts with our products in Polycarbonate, a resistant and safe material.

It is 250 times more resistant than glass, 100 times more resistant than melamine and 35 times more resistant than acrylic.

Our products:

Opening of 2,36 in ensures that the cream does not spread, leaving a thicker layer.

Oval design on the bottom maintains the creaminess. When served, coffee does not spread.

Capacity 2,70 oz

Supports High Temperature

Innovating to always bring the best products, made with the best raw materials, we bring a novelty: Products made of PU.

Made to withstand high temperatures, this resistance contributes to the product having a longer useful life and you have less expense for spare parts.

Line Sets and Kits

Thinking to better serve the gift market and to offer even more convenience to the consumer, **Vem** created the **Line of Sets and Kits**.

It brings products from all the lines in union, ideal to gift someone or yourself and make the more pleasant kitchen environment.

It has the most diverse sets, from salad bowls from different sizes to kits for oriental cuisine.

Prepare Line in Silicone

We developed the **Prepare Line** to make your life easier in the kitchen and optimize your time in preparing your recipes.

The products are made of Silicone, a material resistant to high temperatures, malleable and easy to clean.

NEW

Non-stick and reusable!

No need to use greaseproof paper, oils or greasy sprays.
