Dreamchef started in S. Korea in 1998, and moved our operations to Vietnam in 2018.
Since then, we have continued to produce high quality aluminum pots and pans.
We serve customers internationally, with a focus on North American,
Korea, Asia and Europe. We are excited to explore a partnership.
Dreamchef develops partnerships with companies that meet our profile of 'good companies' to
collaborate with. We seek to build long-term relationships by providing excellent customer
service, on-time lead times, high quality and transparent pricing. In return, we look for
partners that are looking for similar things and want to collaborate with us to build out their
business. We're constantly listening to our customers; finding out what they need,
how they need it and when they need it. It's not rocket science.
We simply realize our customers' satisfaction is the most important thing we can offer.
