The brand was founded in 2021, but the story behind Hoiï began decades ago. Hoiï is part of a large family business where passion for textiles and interior design come together. Conveying the luxurious feeling is the main focus of our team. Every collection of cushions is inspired by our many journeys.

As a brand, we are inspired by different cultures, architecture, art and trends within the interior and fashion industry.

Fall in love with the warm colours, vibrant dessins, extraordinary details and handmade finishing. The cushions of Hoiï are manufactured through authentic craftsmanship. All cushions are hand-filled with a natural feather filling in our warehouse in the Netherlands.

With the products of Hoiï we want to give you a feeling of coming home. Coming home is a luxurious moment with the ambiance and warmth of Hoiï.

DYNAMIC

SUSTAINABLE LIVING,

Coming home is a luxurious moment with the ambiance and warmth of Hoiï. In addition to ambiance and warmth, we also like to come home “consciously”. Aware of our ecological footprint and it’s impact on the world. Therefore, we are constantly working on making Hoiï more sustainable. This includes the entire process from cotton to the finished product. We want to contribute to a more sustainable world.

Onze principles

To be transparent and provide a good working and living environment, not only for our own employees but also for our suppliers. We have been working closely with our long-term partners in the Far East for years. We are very aware of social compliance and ensure that our partners in the Far East are encouraged through audits to continue to meet our requirements within working and environmental conditions.

We are proud to tell you that we as Hoiï are members of Amfori BSCI, a global initiative that promotes responsible and sustainable business practices in supply chains.

High quality and safe products

Hoiï want to be able to guarantee that we offer a good and safe product. Therefore, a number of cushion covers are OEKO-TEX STANDARD 100 certified.

The OEKO-TEX STANDARD 100 is a global certification system for both raw materials and textile products. At Hoiï it concerns a selection of cushion covers.

Our entire production process is tested so that we can say with assurance that our products are harmless to humans.

Our products are tested for compliance with the legal rules and regulations concerning environmentally harmful substances such as heavy metals, harmful dyes and plant protection products.

Recycled feathers

The quality team of Hoiï is continuously improving and innovating the production process and obtaining the necessary certifications for our products. We are proud of the fact that all our feather cushion fillings contain 50% recycled feathers certified by the Global Recycled Standard (GRS).

With love,
Team Hoiï
