Since 1981 our company has been in the cleaning market business. Our company began its work in the European market and after few years expanded its business overseas to America, Asia and all over the world specializing exclusively in metal broom handles production and shipping. Always, al.gi. has been recognized by its customers for their high levels of efficiency and professionalism. We are able to ship merchandise to all countries worldwide and our high-tech and completely automatic production process allows us to prepare the order to be shipped very quickly. This is why today we can say that al.gi is "the winning solution" for its customers.
