

IN - IDEE IN PLASTICA was born from the thirty years experience of Reca Plast srl, a company specialized in the transformation of plastics and mold production. This know-how has inspired us to create a collection of **MADE IN ITALY** plastic households, designed for daily use, both in domestic and professional sector, using exclusively certified and high-quality raw materials.

Our products are known for their **durability**, they are **reusable**, and most importantly, **recyclable**, with a strong focus on sustainability.

As manufacturers, we offer a complete and integrated service: we oversee the entire process, from design to the creation of the plastic item, thanks to a highly qualified and specialized team. This enables us to respond quickly to new market trends, ensuring customized solutions and full customer satisfaction.
