Horeca cookware line has hard bodies and reinforced coatings for professional kitchens.

Riveted metallic extra long handles ensure safe cooking even at high temperatures.

Its PFOA-free non-stick coating is suitable for human health.

Proven Papilla quality

Made in Türkiye.

The union of the heavy-duty body with an eye-pleasing finish in different colors has created an elegant range, Wilma. Ergonomic soft-touch and heat-resistant bakelite handles ensure cooking safety. The glass lid, in addition to being part of the elegance of the product, stands out for its curved structure that facilitates cooking.

Granite
Effect

The belly shaped Atom cookware set is very chic with heavy-duty aluminum bodies, steel accessories and stylish finishes with black color. The entire set with stainless steel handles is completely oven safe. The interior surface of the entire set is double coated with sturdy, reliable nonstick coating. The nonstick coating is ultra durable while remaining 100% free of PFOA, PTFA, lead, and cadmium, ideal for healthy cooking.

Granite
Effect

The Master line adds a different personality to cookware by bringing out color and pleasant patterns against uniformity. The cute patterns on the product are like a natural invitation for parents and their children to cook together. Its PFOA-free non-stick coating is suitable for human health. Comfortable handles stay cool during use, vented glass lids let steam escape.
