

HOSPITALITY & PROJECT  
**LINDDNA**

## HOSPITALITY & PROJECT COLLECTION IN RECYCLED LEATHER

In the world of hospitality, even the tiniest details create a big impact. That is why, we specialize in crafting customized solutions in recycled leather offering a wide range from logo-embossed, custom-sized table mats, handcrafted menu covers, trays with logo-embossed inlays and so much more.

We design and produce in Denmark and appreciate the opportunity to create products that contribute to a complete experience for guests throughout their visit with you.

## CORE LEATHER

The recycled leather, we use in our designs, originates from vegetable-tanned core leather sourced from surplus production in the furniture and fashion industry — such as leftover pieces of leather from the production of a sofa or shoe soles. The fact that the leather used is vegetable-tanned means, that only plant-based liquids have been used in the tanning process, which is a more sustainable method, that also enables the recycling of the leather.

## GRANULATE

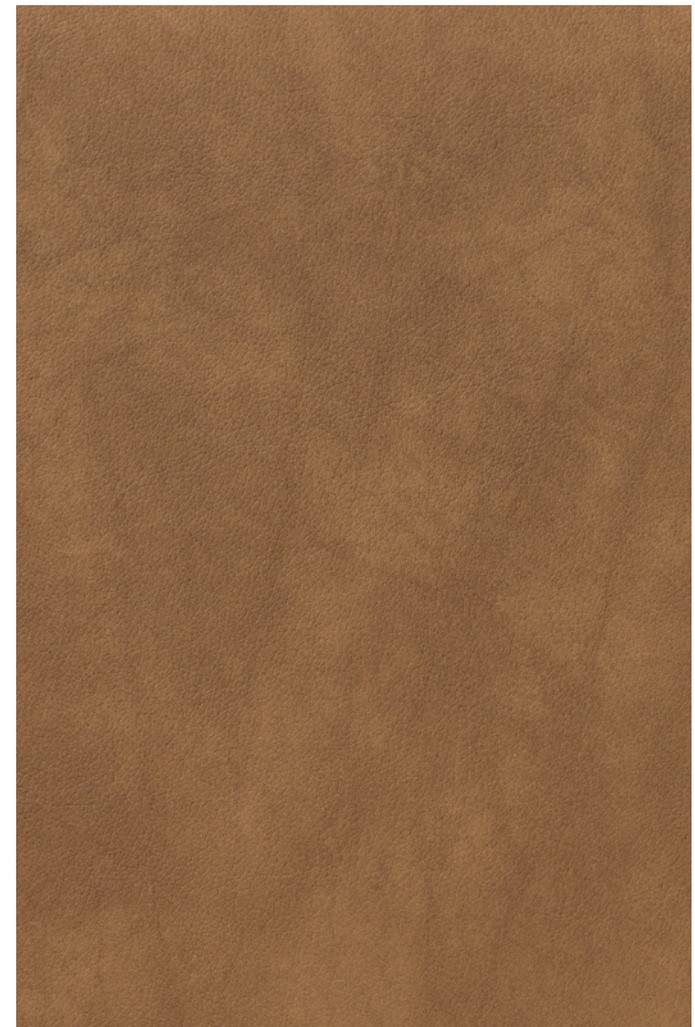

The vegetable-tanned core leather is granulated into tiny pieces, transforming it from a solid piece of leather into crumbs that feel soft and lightweight to the touch. This granulate is mixed with natural rubber from trees in a ratio of 80% core leather to 20% natural rubber, and then pressed to create recycled leather.

## RECYCLED LEATHER

From core leather to granulate to recycled leather. This process has been carefully developed to create a unique material offering remarkable versatility, easy maintenance and a lifetime of durability. Also, a material that, during the process, grants us the opportunity to explore boundless design possibilities in terms of colour and textures. Both water-based colours and textures are developed with a focus on creating an organic, natural expression and colour interplay, that stays true to the natural material.

## COMPLETE THE LOOK

Our extensive collection of table mats and menu cards offers a variety of leather textures, colours, shapes and sizes. This allows you to choose products that suit your needs and style – and complete the look by coordinating both table mats and menu cards and perhaps other complementary products such as cutlery and stick holders, name tags, and door hangers.

### MENU AND WINE CARDS IN RECYCLED LEATHER

Our menu and wine cards in recycled leather are meticulously designed to create a refined dining ambiance. They are available in 12 series, each featuring unique functional and aesthetic details, and are crafted in more than 17 colour combinations. This allows you to customize the appearance of your cards – and, of course, add your logo or any other desired text.

### TABLE MATS IN RECYCLED LEATHER

Our table mats are available in five leather textures and over 30 colours, all made from recycled leather. Choose from various types, such as glass, lunch, and dinner mats, which you can use as they are originally designed or customize according to your preferences in terms of colour, size, shape, and logo-embossing.

MOSS / SERENE  
Table Mats and Glass Mats in Square shape.

## ALU TRAYS

Alu Trays is a decorative and functional tray, made from aluminum, with a personal and changeable expression, as the tray has an enclosed recycled leather inlay that can be changed or removed. The tray is highly functional both as a serving tray, as decoration or for storing. The durable leather inlay makes the tray easy to clean and ideal for all types of serving and storage.

## TEAK TRAYS

Like the rest of our collection our teak trays in recycled teak boast a timeless design, yet they bring forth a multitude of possibilities. Perfect for serving, setting the table, or enhancing your decor. The collection features two elegant designs both adorned with meticulously crafted finger joints and produced according to highest standards of craftsmanship. One design presents a modern yet lasting expression with open corners, while the other exudes the charm of classic, closed corners. The teak trays come in three sizes, each adorned with leather inlays in selected colours.

## CAVIAR / NUPO

Sleek table setting with Teak Tray Square Airy and square table mats all in our grey-brown with a subtle hint of green, Caviar.

## TEAK TRAYS

The elegant designs of our teak trays from recycled teak seamlessly complement various contexts. The leather inlays not only enhance the visual appeal of the tray, but also offer the opportunity to craft a cohesive style by selecting colours, that harmonize with the surroundings or match your table mats. With their versatile aesthetic and customizable features our teak trays become a sophisticated addition to any setting, adding both functionality and aesthetic charm.

## RECYCLED TEAK

With a captivating passion for recycled materials, we have looked in further directions and expanded our range with products made from recycled teak. The small, thin pieces of teak wood used for our trays, are essentially waste products from the production of furniture, originating from mature trees harvested in renewed and certified plantations in Indonesia. We have invested in converting, what is essentially a waste product, into quality designs made to the highest standards.

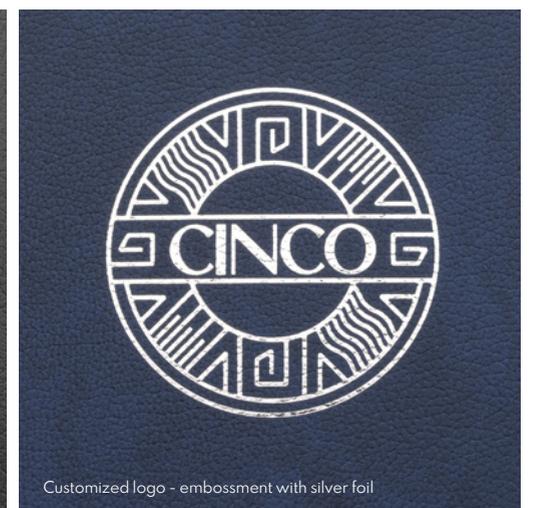

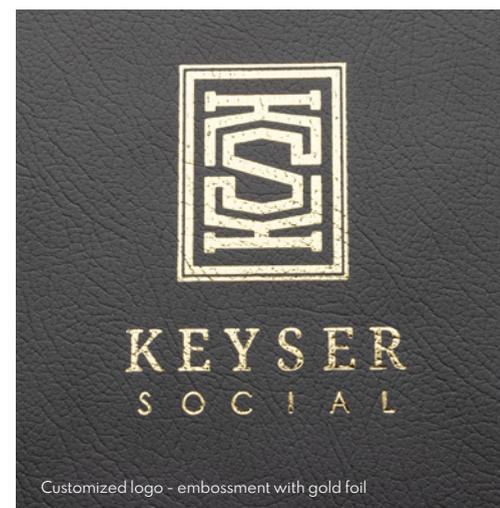

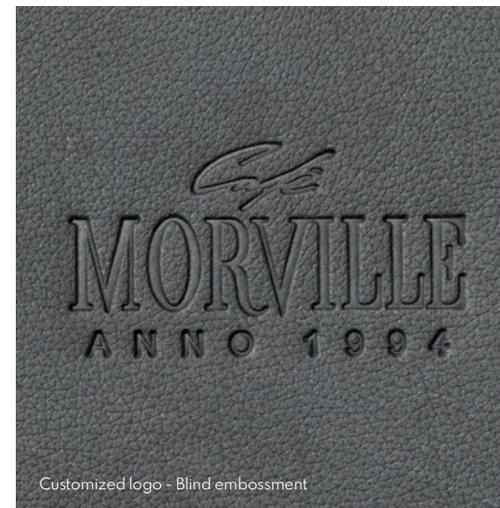

## CUSTOMIZATION OPTIONS

In addition to our various products and their customizable options, there are also numerous possibilities regarding the embossment. By choosing the type, colour and size of your embossments, you have the opportunity to create a consistent thread throughout your entire visual identity.

## LOGO EFFECTS

We offer embossment of customer logo, and of standard graphics such as: Menu, Wine and Drink. Embossment can be made as blind embossment, as well as with foil in different colours.

## DK

### MADE IN DENMARK

All LIND DNA recycled leather designs are handcrafted in Denmark, ensuring unprecedented quality in every step of the production process.

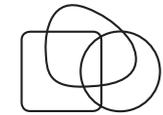

### SUSTAINABLE DESIGN

Sustainability is at the heart of the LIND DNA strategy. Our recycled leather is made from 80% recycled leather and 20% natural rubber.

### CUSTOMIZATION

Our inhouse design and graphic team combined with our extensive range of colours provide great flexibility in supporting special customization ideas from our customers.

### SHAPE / SIZE

With our very special inhouse production set-up, we can meet your wishes as for customization of size and shape. We can fit any setting to your tables and surroundings.

### FLEXIBILITY & SPEED DELIVERY

Due to local production, delivery time is short for both customized and standard orders, which ensures the highest degree of flexibility.

### EASY TO CLEAN

The unique combination of recycled leather and natural rubber gives a strong and durable material, which is very easy to maintain, and which will keep its look and feel through continued use.
