## Discover FunCakes

FunCakes is like your **best buddy** who likes baking as much as you do. The one you talk non-stop about baking with, who enjoys a piece cake like you do and who always inspires you with new ideas. It's also the one you call when your buttercream keeps on separating or your cake collapses. We are like your best baking buddy, because we started just like you did.

On the basis of our brand are owners who love baking as much as you do. FunCakes was created 2009 out of their search for **baking products of professional quality** for home bakers like themselves. Cause why should we be limited to basic products in our own kitchens?

We love to keep trying new things. So we mix and match our own products into new, surprising combinations. We hope you do the same. Cause by adding your own creative touch to our products, cakes become really special.

We develop baking mixes for cakes that are super tasty and of **perfect texture**, but still really easy to prepare with just butter, eggs or water. These can be combined with our toppings and filling to which you can also add one of our flavourings and colourings to really make it your cake.

Just as much as we **love baking**, we love cake decorating. So you will also find a rainbow of sugar paste and marzipan colours, many sprinkles and happy sugar decorations to finalize your cake! We keep on adding new products based on trends and new developments, so check out our complete assortment.

FunCakes is based in Amsterdam, The Netherlands, but you will find our products everywhere in Europe, mainly in cake decorating stores, several store chains and of course online!

CakeSupplies is our exclusive distribution partner. All our products are shipped from their warehouse in Amsterdam, The Netherlands. If you are interested in becoming a FunCakes reseller, please contact CakeSupplies.

## Toppings & Fillings

Think of cakes, cupcakes, macarons, donuts and pastries without the filling and what's left is much less interesting. Sure, we love a nice cupcakes. But the **topping of buttercream** or Enchanted Cream® is what makes it so good. And what's a red velvet cake without frosting or petit fours without a nice layer of jam in the middle?

Exactly. Boring, unsatisfying, a bit so-so. Yes, disappointing we might even say. It's not what you as a home baker gets you in your kitchen. What makes you to preheat your oven and get that mixer running. No need to explain. That's why FunCakes has these pages full of mixes for the most **addictive cake fillings and toppings**.

## Sugar Paste & Marzipan

**Flexible and elastic.** That characterizes our sugar paste and marzipan. Thanks to a rainbow of available colours, cakes can get every desirable colour and very refined decorations can be made. And apart from the regular fondants in vanilla flavour, FunCakes also has a **range of flavoured sugar paste**. Our advice is to try and taste those beautifully decorated figures, cause they sure are more than just good looking.

## Deco Melts

One of our most versatile products, the FunCakes Deco Melts. Melt and pour them into any desired shape. Equally popular with experienced home bakers as with their little ones. Cause for you it means awesome **drip cakes** and cupcake decorations, while your kids have fun making **lollipops and sweets**. Isn't that just the best? Getting rid of all those screens for a while and enjoy some creativity together.

Melt the Deco Melts shortly in the microwave or au bain-marie and you're ready. Fill some decorating bags with the soft melts and **pipe figures or disks** on parchment paper. And now that the melts are still soft and wet, quickly add some nice sprinkles on top for that ultimate happy feeling.

## Sprinkles

The house has that delicious smell of home made cupcakes and little children's eyes grow by the sight of those delicious creams on top. But hold your horses here guys, cause your cupcakes can't be served without that **last pinch of happiness**. And when all those fun sprinkles get on the table, even the smallest kids suddenly know to be patient. So open those pink jars and start sprinkling! Do you go for little nonpareils, colourful confetti or stylish sugar pearls? And the kids? There are choosing the **Sprinkle Medleys** with little dinosaurs, unicorns, crowns and butterflies in it. And we get that. Cause decorating cupcakes, has forever been the most fun of all, right?

Materials

Who doesn't know how to ski after years of practice, always burns his eggs or makes unsharp pictures all of time, might blame it on the **material**. Something everyone around him laughs about, but in fact it's not complete nonsense. We wouldn't dare to say that good ski's will automatically make you a good skier or that it's impossible to burn things in a good frying pan, but good quality material sure does make a **huge difference**. And that surely also applies to baking.
