

PRESS RELEASE

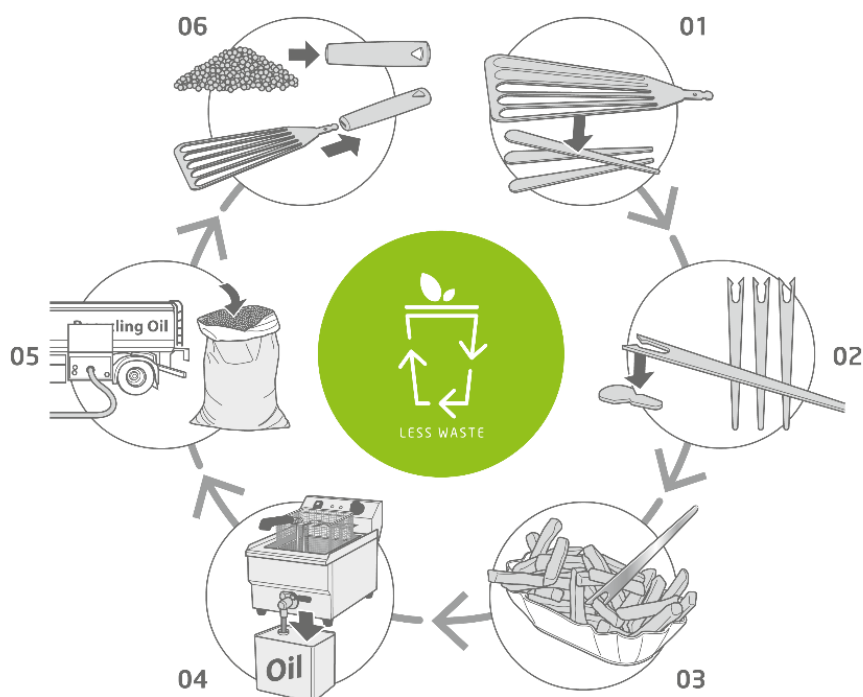

Solingen, January 2025

Less waste!

Antipasti forks made in Germany

Our triangle Antipasti Forks are a real “Less Waste” product. They are made from the punched slots out of our turners and thus use material that would otherwise have to be recycled and remelted.

The antipasti forks are ideal for snacks such as olives or cheese. Made from stainless steel, they are even more sustainable than their wooden counterparts as they are non-disposable and can be easily cleaned in the dishwasher.

triangle Art. No.

90 492 06 03
