DIMITRIOS VLACHOS FOUNDER IN 1972

COMPANY PROFILE

Περισσότερα από 50 χρόνια, η **NAVA** έχει συνδέσει το όνομα της με το χώρο του οικιακού εξοπλισμού. Με κέντρο τις υπερσύγχρονες εγκαταστάσεις της στη Θεσσαλονίκη, σχεδιάζει και προσφέρει ολοκληρωμένες συλλογές σε είδη κουζίνας με τη δική της υπογραφή.

Έχοντας ως βασική φιλοσοφία τα προϊόντα της να προσφέρουν μεγάλη λειτουργικότητα στην κουζίνα, η **NAVA** δίνει λύσεις που βελτιώνουν την καθημερινότητα των ανθρώπων στην κουζίνα. Ως ένα από τα πλέον πιο αξιόπιστα brand μαγειρικών σκευών, εργαλείων κουζίνας, ειδών σερβιρίσματος φαγητού και οργάνωσης κουζίνας, έχει δημιουργήσει μια γκάμα προϊόντων που καλύπτει επίσης το πρωινό, τον καφέ, το οικογενειακό τραπέζι, τη μαγειρική του φοιτητή αλλά και τη μαγειρική της ανατολής για τους λάτρεις των Έθνικ γεύσεων.

Από την ίδρυσή της το 1972 έως σήμερα, η **NAVA** αναπτύσσεται, έχοντας ως βασική αρχή την ολική ποιότητα των προϊόντων και υπηρεσιών της και το αποδεικνύει πιστοποιώντας τα προϊόντα και τις υπηρεσίες της με Σύστημα Διαχείρισης Ποιότητας **ISO 9001:2015** της TUV AUSTRIA.

Είναι μια από τις σημαντικότερες Ελληνικές εταιρείες στο χώρο των προϊόντων που σχετίζονται με τη μαγειρική, τη ζαχαροπλαστική, την προετοιμασία φαγητού, την παρουσίαση των γευμάτων, την οργάνωση κουζίνας, με ισχυρή δυναμική για συνεχή ανάπτυξη και διεθνή παρουσία και εξαγωγική δραστηριότητα σε: Ευρώπη, Αμερική, χώρες της πρώην Σοβιετικής Ένωσης, Μέση Ανατολή και Αφρική.

Με στρατηγικές συμφωνίες, ανάπτυξη νέων προϊόντων αλλά και συνεχείς επενδύσεις σε υποδομές και marketing, η **NAVA** διατηρεί την ηγετική της θέση στην Ελληνική αγορά έχοντας κερδίσει την εμπιστοσύνη των σύγχρονων μοντέρνων νοικοκυριών και των ανθρώπων που ασχολούνται με τη γαστρονομία, ενώ παράλληλα επεκτείνεται παγκοσμίως εδραιώνοντας συνεργασίες με τους σπουδαιότερους διανομείς και αλυσίδες καταστημάτων οικιακού εξοπλισμού **σε περισσότερες από 40 χώρες**.

Η σημαντικότερη όμως επένδυση της **NAVA**, είναι το ανθρώπινο δυναμικό της. Με πλήρη εκπαίδευση αλλά και όραμα που ταιριάζει απόλυτα με το εταιρικό προφίλ της εταιρείας, οι άνθρωποι της μπορούν να ανταπεξέλθουν σε κάθε πρόκληση και να επιτύχουν κάθε στόχο είτε αφορά τον διεθνή, είτε τον Ελληνικό χώρο του οικιακού εξοπλισμού.

Όλα αυτά τα χρόνια η **NAVA** πιστή στις αξίες της και έχοντας ως γνώμονα τον άνθρωπο, στηρίζει με δράσεις αδύναμες κοινωνικές ομάδες, με στόχο τη βελτίωση της ποιότητας ζωής τους.

Η ανάπτυξη και προσφορά υψηλής ποιότητας προϊόντων και υπηρεσιών αποτελούν τις βασικές κινητήριες δυνάμεις της εταιρείας για τη συνέχιση της επιτυχημένης πορείας της στην Ελληνική και τη παγκόσμια αγορά. Η **NAVA** είναι συνώνυμη με τον σχεδιασμό αιχμής, την υπέρβαση των ορίων και τον επαναπροσδιορισμό της ουσίας της λειτουργικότητας αλλά και της αισθητικής. Από το ξεκίνημα της πορείας της, το 1972 μέχρι τη διεθνή αναγνώριση, το ταξίδι είναι αξιοσημείωτο.

During the last 50 years, **NAVA** has been launching a range of products with its own signature, determined to offer solutions of modern design and great functionality for every home. **NAVA** supplies product collections that make the difference and this reflects its philosophy. Based in Thessaloniki, Greece, it has created the powerful momentum for continued growth and it has become one of the most trusted brands of cookware, bakeware, kitchen utensils and tableware.

NAVA has been focusing on meeting high quality standards in its products and services since its foundation in 1972 and today it proves it by certifying its products and services with the ISO 9001:2015 Quality Management System in accordance with TUV AUSTRIA procedures.

NAVA is one of the leading Greek companies in the sector of products for food preparation, cooking, baking, dining and home organizing, with significant presence and export activity on an international level, including Europe, America, former USSR states, Middle East, Africa. While **NAVA** retains its position in the Greek market, by having established solid relationships in kitchenware and tableware sector, its business extends globally via strategic alliances and continuous investments in product development, marketing and advertisement. Today, its presence extends to over 40 countries through collaborations with some of the most respected distributors and chains of retail stores over the world.

The real asset of **NAVA** is its personnel. Well trained, with collective vision which fits the company's values, its people can cope with every challenge and achieve every goal, in both Greek and international markets. Throughout the years, **NAVA** is loyal to its values. Always caring about people, it supports social groups, constantly being involved in activities and campaigns.

By developing and providing high quality products and services, **NAVA** will continue its successful growth in the Greek and global market.

NAVA is synonymous with innovative design, pushing boundaries and redefining the essence of functionality and aesthetics. The journey from the beginning in 1972 until its international recognition has been remarkable.

Cookware

Ergonomics combined with modern design.
NAVA cookware play a leading role in every kitchen.
Non-stick, stone or ceramic coated, with a variety in
their design, make your cooking even easier. Discover
through a wide range, frying pans, casseroles, roasters
& baking forms, multi-functional cookware and many
other smart solutions made of aluminium, stainless
steel or carbon steel in various sizes, for everyday use
and high durability.

NAVA®

Oléa

High quality aluminium cookware “OLEA” with 5 layers of stone non-stick coating.

OLEA cookware line by NAVA contains unique pieces in a modern, but timeless design, which are featured by their excellent thermal conductivity, as they heat up quickly and they maintain their temperature for a longer period.

They are manufactured by die-cast aluminum, with solid metal composition and heavy bottom, they match perfectly on the hotplate, thus the heat distributes uniformly through the whole surface of the pan and ensures outstanding results, offering you the opportunity to have a uniform, healthy and delicious meal and at the same time to save energy by cooking at low temperatures.

The high quality of the non-stick inner coating of 5 layers provides long-lasting durability to everyday use, the reinforced external surface is highly resistant to scratches, while their smooth surface guarantees easy cleaning.

The specially designed ergonomic, heat-resistant soft touch handles provide comfortable and safe grip, protecting from high temperature.

The fabrication involves low-carbon footprint processes and excludes PFOA.

Κατάλληλο για όλες τις εστίες - Suitable for all kind of stoves

Atlas

Premium quality multifunctional cast iron cookware "Atlas" with non-stick coating and stainless steel handle for longer durability and direct use in the oven.

Suitable for professional use

High quality multifunctional cast iron cookware "Atlas" with non-stick coating and stainless steel handle for longer durability and direct use in the oven. "Atlas" cookware are manufactured from cast iron and they have stainless steel handles. They are aimed for use in professional kitchens (restaurants or hotels) as well as in all types of home stoves, while additionally they are suitable for direct use in the oven. The special honeycomb surface provides long-lasting durability to everyday use and high resistance to scratches. The additional coating ensures the anti-corrosive protection of the surface while at the same time improves its nonstick properties.

Some of the main characteristics of the cast iron are the quick and uniform distribution of the temperature in the pan, the nonstick feature, and also its great thermal density which allows the pan to remain hot for a longer period. The pan gradually transfers its heat to the food and consequently all of its nutritious elements remain unchanged. Thus you can save energy while cooking and use little or no fat in order to have a healthy and delicious meal. The production is based on an innovative technique, which results in the weight reduction of the pan compared to other similar cast iron cookware, while in the same time the thermal properties of the cast iron remain unaltered, leading to superior flavour and making the cooking process in cast iron pan a unique experience.

Use the cast iron cookware for boiling, sauteing, searing, braising, frying, grilling, broiling, and baking. Combine the perfect performance of the cast iron with your need for a lighter functional pan and cook like a professional chef.

The fabrication involves low-carbon footprint processes and excludes PFOA.

Suitable for: gas, electric, ceramic, halogen, induction and for the oven.

Κατάλληλο για όλες τις εστίες - Suitable for all kind of stoves

NAVA® Elegance

LIMITED COLLECTION

New generation of excellent quality ELEGANCE non-stick cookware made of aluminium, with 3 non-stick ceramic coatings.

They are manufactured and packaged from recycled materials. The excellent and durable ceramic coating ensures great resistance to abrasion and high temperatures (up to 300° C). They are produced in such a way that there is a significant reduction in carbon dioxide emissions and they do not contain PFAS, PTFE and PFOA. The solid composition of the metal and the heavy bottom help to distribute the heat evenly over the entire surface of the pan.

The inner non-stick ceramic coating provides long-term resistance to daily use, while its reinforced outer surface makes the utensil resistant to abrasion.

Elegance

The ELEGANCE non-stick deep frying pan from NAVA has a large depth, which allows you to use the utensil as a frying pan, as a wok and also as a casserole dish for cooking food.

It is the ideal pan to achieve an absolutely delicious and healthy cooking result as ingredients retain their authentic taste and nutrients while requiring a minimum amount of oil during cooking. Cook steamed or Chinese dishes, boil, fry, cook your favorite noodle recipes, stir fry, sauté with just one pan.

Elegance

Stainless steel pressure cooker with folding handles **22cm - 6L**

10-266-003

Technical Characteristics & Use instructions

Conforms to CE standard specifications

Body made of stainless steel 18/8 (SS 304), thickness 1.00mm
 Lid made from stainless steel 1.20mm
 3 layers bottom made from stainless steel & aluminum, thickness 4.50mm
 Sealing gasket made of silicone
 Internal capacity scale: ½ to max
 Pressure regulator valve provides 2 options of pressure level. Working pressure:
 1st level 60kPa±10% - 2nd level 100kPa±10%
 Ergonomic handles for safe carrying - Bakelite handles

3 alternative safety systems:

- Regulator valve (2 pressure levels)
- Steam release valve
- Safety window

Max safety limit 1: 60-100kPa (regulator valve)
Max safety limit 2: 120-160kPa (safety valve for steam release)
Max safety limit 3: 180-300kPa (safety window)

Total capacity: 6L

Diameter: 22cm

Bottom Diameter: 19,50cm

Max internal pressure: 360kPa

Lid's safety 1: Internal pressure>4kPa (the lid does not open)

Lid's safety 2: Internal pressure<4kPa (the pressure does not increase if the lid is not properly closed)

Caution: The pressure cooker is intended exclusively for the preparation of food in small quantities and exclusively for private domestic use. Not intended for professional use.

Technical Characteristics & Use instructions

The heavy, 3-ply, high thermal conductivity bottom, is made of stainless steel and an aluminum layer encapsulated in the middle, assures perfect application on the stove, resulting in uniform heat distribution across its surface. The pot becomes hot faster and keeps the heat for a longer period offering maximum performance. In this way, you ensure not only fast, even and healthy cooking at low temperatures, but also energy and time-saving.

NAVA®

High quality aluminium cookware "TERRESTRIAL" with 3 layers of stone non-stick coating.

TERRESTRIAL cookware line by NAVA contains unique pieces in a modern, but timeless design, which are featured by their excellent thermal conductivity, as they heat up quickly and they maintain their temperature for a longer period.

They are manufactured by aluminum, they match perfectly on the hotplate, thus the heat distributes uniformly through the whole surface of the pan and ensures outstanding results, offering you the opportunity to have a uniform, healthy and delicious meal and at the same time to save energy by cooking at low temperatures.

The high quality of the non-stick inner coating of 3 layers provides long-lasting durability to everyday use, the reinforced external surface is highly resistant to scratches.

The specially designed ergonomic, heat-resistant soft touch handles provide comfortable and safe grip, protecting from high temperature.

The fabrication involves low-carbon footprint processes and excludes PFOA.

NAVA®

The 3 layers and the quality of granite coating on the inner and outer surface are very important for the long life of the pan. The high resistant glass lid, with the special port that facilitates the addition of liquid aroma ingredients when used in the oven, completes the characteristics of durability and quality of the cookware.

NAVA®

Excellent quality aluminium **NATURE** cookware with 5 layers of non-stick stone coating.

The excellent and durable non-stick coating ensures **great resistance to scratches** and high temperatures. Fabrication involves low-carbon-footprint processes and **excludes PFOA**.

The 5 layers of non-stick inner coating provide long-lasting durability to everyday use and ensure **perfect healthy cooking**, with a great taste, like if you were cooking on natural stone. The non-slip, ergonomic **wooden effected handle** remains cool even after hours of cooking and enables the easy use of the pan. NATURE cookware is designed to **withstand sudden temperature changes** and is **very easy to clean**.

NATURE

NAVA®

Excellent quality aluminium TAURUS cookware with 5 layers of non-stick stone coating.

The excellent and durable non-stick coating ensures **great resistance to scratches** and high temperatures. Fabrication involves low-carbon-footprint processes and **excludes PFOA**.

The 5 layers of non-stick inner coating provide long-lasting durability to everyday use and ensure **perfect healthy cooking**, with a great taste, **like if you were cooking on natural stone**. The ergonomic **bakelite handle** remains cool even after hours of cooking and enables the easy use of the pan. **TAURUS** cookware is designed to withstand sudden temperature changes and is very easy to clean.

NAVA®

Set bundt pan, spring form and flan tray with nonstick coating **3pcs**

The bakeware set is made of carbon steel which ensures **uniform heat distribution**, and, thus, better cooking results. The **non-stick stone coating** allows the **easy removal** of the cake or the tart, as well as the easy cleaning of the pans after use.

The set is available in a beautiful gift box and includes:

Detachable spring form with a side metal hook which releases the cake intact and ready to serve easily and quickly.

Product Dimensions

NAVA®

Enamel casserole for french fries, with glass lid and stainless steel basket.

The enamel casserole with stainless steel basket is ideal for frying potatoes, small fish, meatballs and other fried appetizers. It includes a drain basket made of stainless steel with 2 folding handles for practical and easy draining and allows direct serving from cooktop to the table. In addition, by removing the lid,, it is also suitable for use in the oven.

Enamel is a material that heats up quickly and cools down slowly while keeping cooked food warm for a longer period. It distributes heat evenly, has great resistance to scratches and high temperatures, is light and easy to clean.

Make omelettes and crepes quickly and easily with DUBOKO omelette pan. With 3 layers of non-stick coating and innovative design of 2 non-stick removable pans which perfectly match to each other, ensures simple and uniform cooking, giving both sides of the omelette while at the same time they can be used as 2 separate pans. The exceptionally durable non-stick coating guarantees perfect taste without affecting it, while ensuring healthy and even cooking, easy cleaning and long-lasting resistance to everyday use. The fabrication involves low-carbon footprint processes and excludes PFOA. Ensures uniform cooking at low temperatures allowing saving energy while cooking.

Kitchen utensils Acer

The Acer line of kitchen utensils is designed for kitchen and aesthetic lovers. Designed in a simple line, it is an excellent choice for those looking for a modern, but at the same time elegant aesthetic in the kitchen.

Based on the design of modern kitchen utensils, it follows the principles of functionality and simplicity, in order to serve the needs of a contemporary kitchen.

The utensils in the Acer line are made of 18/8 stainless steel, which makes them very resistant to high temperatures and ensures longer life. They are made according to the regulations for products that come in contact with food and are the absolutely healthy and safe choice for your kitchen.

Dishwasher safe.

Σε αυτό το θερμός ποτήρι χωρητικότητας **900ml** με αντλιοσθητική ματ επένδυση εξωτερικά, θα διατηρείτε τα ροφήματα είτε ζεστά είτε κρύα στην επιθυμητή θερμοκρασία για 6-8 ώρες, ανάλογα με την εξωτερική θερμοκρασία.

Με **δαχτυλίδι σιλικόνης στο καπάκι** για ασφαλές κλείσιμο χωρίς διαρροές για τα κρύα σας ροφήματα, ενώ συμπεριλαμβάνεται **πλαστικό καλαμάκι** για ευκολία στη χρήση.

In this **900ml** capacity insulated mug with a non-slip matte coating outside, you will keep beverages either hot or cold at the desired temperature for 6-8 hours, depending on the outside temperature.

With a **spill-free lid** for secure closure for your cold drinks. A **plastic straw** is included for ease of use.
