

MILTON

HOT POTS 2024

We at Milton have variety of casseroles ranging from ultra-modern Microwave series to Steel casseroles and our regular insulated casseroles. A multi-faceted product that has been designed keeping the aesthetics of the modern dining table as its prime focus and also widely used for taking food to pot luck parties in the neighbourhood and also outdoors.

Our casseroles are made from 100% virgin and food grade material in compliance with international standards (EU & FDA Approved). Special in-house formulation of Polyurethane foam, to guarantee a high thermal rating. The strong & resistant outer body with superior grade stainless steel liner ensures maximum efficiency. Both the outer body and the lid are insulated so that you get hot meals anywhere anytime.

Milton casseroles can also be used as ice-packs to store ice-cream, custard, jelly and salad (please precondition the container with cold water for lasting effectiveness). They can also be used as a yogurt maker.
