ARECA NUT LEAF RANGE

Made from Areca Nut Leaves, water & high-heat mould!
Raw materials include: Fallen & dried Areca Nut Leaves.

Naturally fallen leaves are collected, washed and then put through a high-heat mould press to shape them into our designs. Before packaging, they are UV-sterilized and ready for the table.

Our forests are untouched in the collection and production processes.
The villages collect these naturally fallen leaves and in turn protect the forest.
It is providing these villagers both an improved livelihood and also a better place to stay!
