"WE ONLY HAVE
ONE INSPIRATION:
FILL THE WORLD WHERE
PEOPLE LIVE AND WORK
WITH CAREFREENESS
AND HARMONY"

100% MADE IN ITALY

THERE ARE NO GOOD MATERIALS AND BAD MATERIALS BUT THERE ARE ONLY RIGHT OR WRONG BEHAVIORS.

OUR PRODUCTS ARE ALL **REUSABLE** AND COMPLETELY **RECYCLABLE**.

CORRECTLY MANAGED THEY CAN CONTRIBUTE TO THE DECREASE OF THE ENVIRONMENTAL IMPACT, AT THE END OF THEIR LIFE CYCLE, THEY CAN BE RECYCLED AND PROCESSED INTO NEW PRODUCTS WITHOUT POLLUTING OCEANS AND NATURE, AND WITHOUT FURTHER WASTE OF FOSSIL SOURCES OR EMISSION OF MORE GREENHOUSE GASES.

BUT IT DOES NOT END HERE: THE NEW «**AMBIENTE**» LINE USES LATEST GENERATION OF RAW MATERIALS THAT **CONTAIN 100% OF RENEWABLE SOURCE** TO CONTRIBUTE FURTHER TO **DECREASE ENVIRONMENTAL IMPACT**.

WHO WE ARE

MOJITO DESIGN IS A YOUNG DYNAMIC COMPANY, PROUD TO BE **100% ITALIAN**. THE COMPANY STEMS FROM THE CREATIVITY AND ENTREPRENEURSHIP OF THE GIOVANARDI FAMILY, WITH MORE THAN 30 YEARS OF EXPERIENCE IN WORKING PLASTIC MATERIALS AND RUBBER WITH ALL KIND OF INSERTS, FROM METALS TO STONES.

OUR ROOTS ARE WELL-FOUNDED IN THE ITALIAN HANDMADE TRADITION. OUR GOAL IS TRUSTWORTHINESS, TAKING CARE OF EACH DETAIL AND CLIENT NEEDS. BY THE PROJECT ANALYSIS WE OPTIMIZE THE WHOLE PRODUCTION PROCESS AND THE ONLY LIMIT (OR ALMOST) IS YOUR CREATIVITY. WE GREW UP MAKING INVESTMENTS IN NEW PRODUCTION TECHNOLOGIES THAT MADE US LEADER IN BI-INJECTION MOLDING.

FROM THE FIRST BLUEPRINT TO A 3D RENDER, FROM MOLDS TO PROTOTYPES, TO FINAL PRODUCTION, WE TAKE CARE OF ALL THE STEPS OF THE PROCESS INTERNALLY.

MOJITO DESIGN PRODUCTS COMPLY WITH THE NEW EUROPEAN REGULATIONS AS REUSABLE AND MADE WITH **RAW MATERIALS WHICH ARE TOTALLY RECYCLABLE**.

NEVER AS NOW THERE IS NEED TO FIND NEW SOLUTIONS TO COUNTER ENVIROMENTAL POLLUTION AND FOR THIS REASON WE HAVE SEARCHED FOR MATERIALS WHICH HAD THE BASIS OF RAW MATERIALS FROM COMPLETELY RENEWABLE AND SUSTAINABLE SOURCES WITH **ZERO ENVIRONMENTAL IMPACT**.

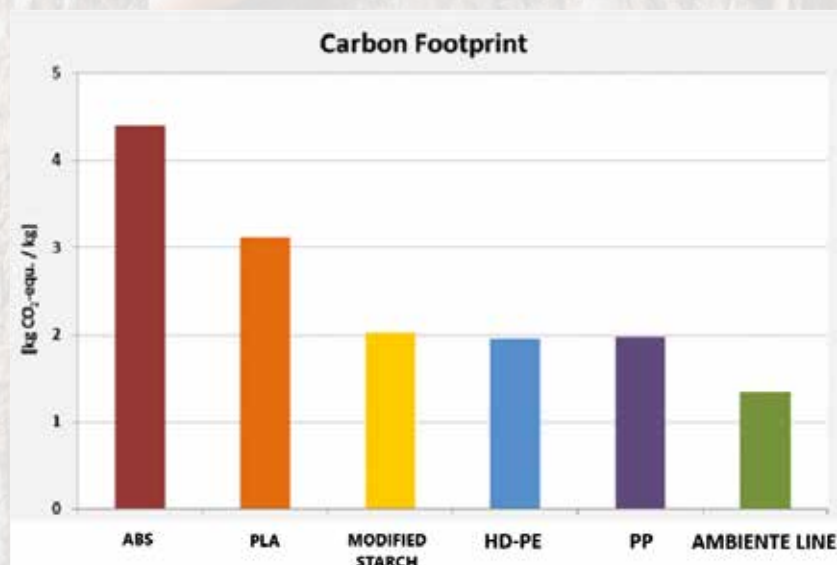

THE "AMBIENTE" LINE INTRODUCES A GENERATION OF POLYMERS WITH 100% RENEWABLE RAW MATERIALS TO REPLACE THOSE OBTAINED FROM SYNTHETIC SOURCES SUCH AS TRADITIONAL POLYMERS.

THESE POLYMERS ARE IN FACT MAINLY OBTAINED FROM WHAT CONSTITUTES NATURAL WOOD SUCH AS LIGNIN, CELLULOSE AND FIBERS.

THE SECOND GENERATION SUSTAINABLE RAW MATERIALS USED TO CREATE THEM COME FROM CONTROLLED REFORESTATION.

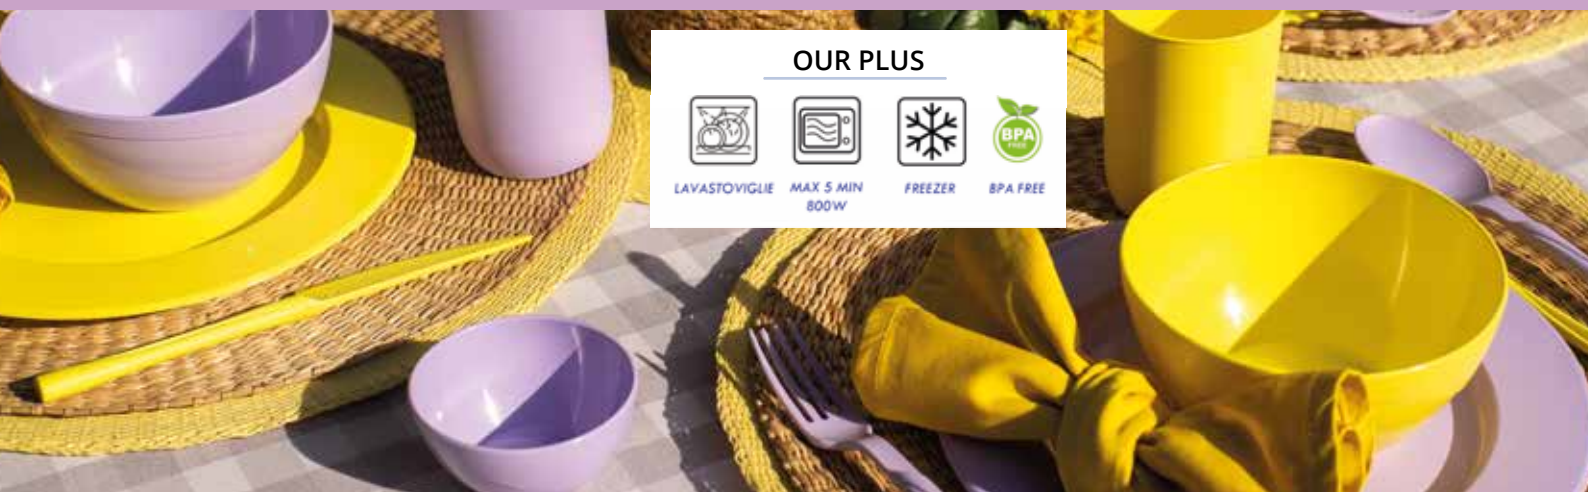

THE BENEFITS OF THESE POLYMERS ARE:

- COMPLETELY FROM RENEWABLE SOURCES
- PLASTIC FREE
- LCA NEUTRAL
- CO2 CREDIT
- RECYCLABLE
- DISHWASHER SAFE
- REUSABLE
