PROFESSIONAL TRADE

Professional Table Top solutions  
for the HoReCa industry

# WELCOME TO PPC

## WHO?

PPC is an Austrian based manufacturer of disposable tableware. Decades of production experience combined with passion for design, product development and top quality.

## WHY?

We want to offer our customers innovative products and problem solvers which will meet the today's indispensable requirements for every new product development: modern design, product performance and uncompromising sustainability.

## WHAT?

Disposable napkins and tablecloths in premium quality, manufactured in our production plant in Austria. Innovative niche products in alternative, high-performing and sustainable materials.

## FOR WHOM?

For companies and entrepreneurs round the world acting in the Hotel, Restaurant and Catering business. We offer both our shelf-ready brand NOUVEAU HoReCa as well as tailor made product and packaging solutions for your PRIVATE LABEL.

## PPC STANDS FOR SUSTAINABILITY AND INNOVATION

The motivation to create a sustainable future for our Earth, coming generations and ourselves has never been as high as it is now. We all have the opportunity to be part of the process. Leading companies are working progressively smarter and more environmentally friendly, using less energy, water and other resources.

PPC is no exception. We continuously invest in material and product research and are proud to put the main focus in our product management both on certified and sustainable products with an optimized lifespan.

About us / sustainability  
**CERTIFICATIONS**

## CERTIFIED QUALITY

PPC products are compliant with all food safety and EU regulations - while our production site is certified to the ISO 14001 management system for environment and quality.

Certifications not only inspire confidence, they concretely help to safeguard the environment.

FSC® stands for "Forest Stewardship Council®" and is an international forest management certification system. Ten global principles guarantee that FSC certified wood and paper products come from responsibly managed forests. The FSC® standard writes e.g. that the ecological functions of a forest must be maintained, it protects endangered plant and animal species and secures the rights of indigenous people and workers.

A strong proof of environmental efforts. Being certified means that the eco - labeled product meets stringent environmental requirements and high standards for chemicals, as well as the use of energy and resources. For products awarded Nordic Ecolabel, only raw materials of the highest quality in environmental terms may be used.

COMPOSTABLE - In order to be able to designate a product as fully compostable, it must fulfill all the conditions set by the European guideline DIN EN 13432. The certification identifies products that consist of biodegradable materials and are compostable. The entire product - raw material, inks, etc. - must be completely biodegradable and compostable. The time frame for composting is set to a maximum of six months, without leaving any environmentally harmful residues.

Our products for your business

## COTTONE NAPKINS

High-quality premium embossed napkins. Our Cottone napkins are made from extra-soft tissue, going through a very special and patented printing and embossing process. The napkins show top quality and a very textile character. They are easy to fold and convince in their daily use with a concrete and very pleasant touch. Cottone design-napkins are compostable according to EN 13432.

More details starting from page 10

## DELUXE NAPKINS

A real premium alternative to fabric. Nouveau Deluxe napkins are made from a new, exclusive and biodegradable viscose nonwoven. The napkins convince with doublethickness, they are linen-like, absorbent, very soft and friendly to the mouth. The surface is velvety and lint-free. Deluxe napkins are sturdy and absolutely fold like fabric. Deluxe napkins are compostable according to EN 13432.

More details starting from page 8

## NOUVEAUTECH TABLECOVERS

Our successful problem solver for table and buffet. NouveauTech is a high-quality coated nonwoven material with interesting properties: elegant and textile-like in appearance, water-repellent and wipeable in the application. NouveauTech is a durable disposable tablecloth that also protects underlying fabric tablecloths from soiling when needed. Repeated use of the tablecloths, e.g. at breakfast or during high workload, also allows interesting savings in laundry and purchasing budgets. Less time spent for covering and un-covering, less material, smaller waste. NouveauTech disposable tablecloths are the result of a completely new material development in which functionality, cost-effectiveness and appearance have been newly combined.

More details starting from page 20

## NOUVEAUTECH BIO

Wipeable, biodegradable and compostable according to EN 13432. Sustainability at its top.

More details starting from page 26

## PACKAGING SOLUTIONS / Private Label

Our packaging solutions are nearly endless. Flexible branding, flexible packaging materials, flexible logistics.

**NEW:** paper packaging

BEAUTIFUL TEXTILE CHARACTER

## Tablecloths

# NOUVEAUTECH

**Available as placemat, slipcover, runner or banquet roll:**

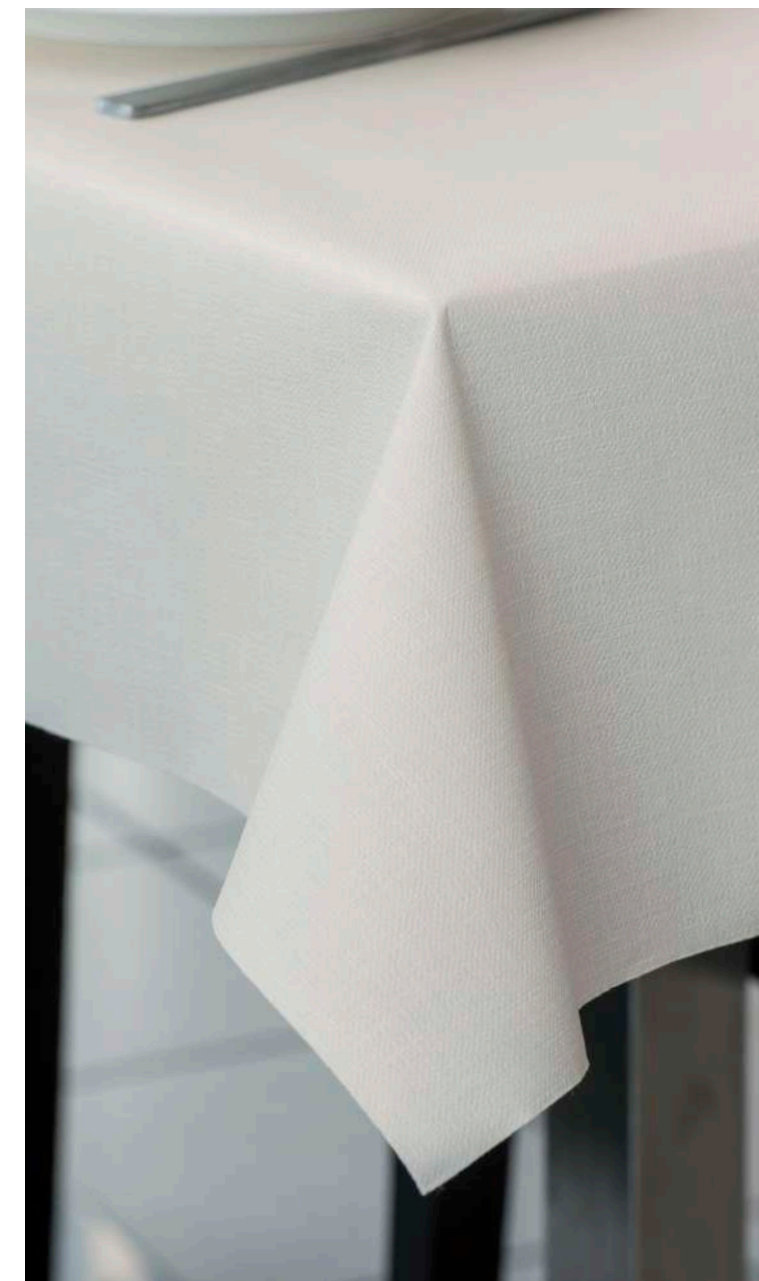

- Fabric-like material with water repellent coating
- Soft, resistant, with a very pleasant touch
- Textile-embossed surface and no unlovely look of “plastic”
- Wipeable, even oil or sauces may be removed
- Tear-resistant
- Easy to cut
- An amazing “disposable convenience product” that may be reused several times
- NouveauTech is a monomaterial made of polipropilene and 100 % recyclable

Wipeable tablecloth in **NouveauTech**,  
for inside and outside.

**NouveauTech** products are marked  
with our CONVENIENCE symbol.

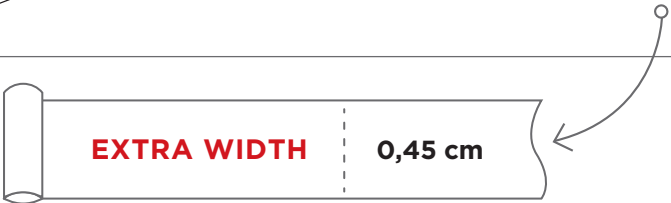

# UNI RUNNER

Runner in NouveauTech with perforation and extra-width.
