

TULÛ PORSELEN®
KÜTAHYA

Soft Porcelain Tableware Produced in Turkey

TULÛPORSELEN®
KÜTAHYA

About US

Tulu porcelain has been producing porcelain for **more than 25 years.**

We combine knowledge and experience of the market with modern management principles.

Our journey, which started in a tile workshop in 1995, continued with the manufacture of ceramics until 2012 and then gave life to porcelain with the successful research and development studies.

Following investments made in 2019, an area of 45.000 m2 has been added to our facility, which started as an indoor area of 8000 m2, and has become the shining face of Kütahya by providing employment for 1000 people.

In addition, as a result of the commercial activities carried out to 39 countries, we have made significant contributions to our country's export volume.

About US

Our monthly production capacity of 4,750,000 pieces consists of a variety of products such as plates, bowls, oval plates, tea and coffee cups, mugs, pots, ovenware, sauce bowls and soup dishes. In the Home and HoReCa, we increase our brand awareness day by day in the national and international market with our customized product options for individuals and businesses by using hand decor and digital printing technology.

Our products are prepared with components which do not contain carcinogenic substances in terms of user health. Furthermore, all our products are bacteria-free and easily washable.

Our goal is to use advanced technologies effectively by integrating our understanding of production with industry 4.0 and to be a leading company that directs the world porcelain company.

Our mission is to blend 1500 years of porcelain history in our culture, to produce nature and human-friendly products with a green production approach, to carry out commercial activities based on trust with our business partners.
