KEY FEATURES & BENEFITS

TRULY UNIQUE

A glaze formula combined with high-temperature firing makes no two pieces look exactly alike. Colour intensity varies from piece-to-piece, creating a truly distinctive look.

FULLY VITRIFIED

Vitrification transforms the ceramic into a non-porous material, enhancing the plate's strength, durability, and resistance to moisture, stains, and cracking. This process ensures the plates are functional, hygienic and long-lasting, ideal for everyday use.

CONFORMS TO BS4034 QUALITY STANDARD

Every piece is subject to rigorous quality checks to ensure product quality.

MICROWAVE, DISHWASHER, OVEN & FREEZER SAFE

Perfect for heating and cleaning requirements and protection against damage caused by thermal shock and temperature fluctuations.

ROLLED EDGE

The rolled edge provides extra strength and durability to provide added chip-resistance. This functionality is key in busy kitchen environments within restaurants and hotels.

POLISHED FOOT

A polished foot not only creates balance to the piece, it also reduces damage when being stacked and stored.
