

DAKOTA

Fly across pages
like never before

Featuring smooth
Slip-in Cap

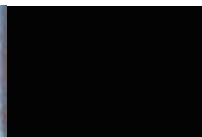

Inspired by the silhouette of the magnificent Douglas C-47 Skytrain “Dakota”, the military plane that played a pivotal role towards the allied victory in World War II, the Monteverde USA Dakota is a sleek, ergonomic star that brings every day carry to a new level. Each Dakota pen features the innovative Slip-In Cap™, designed to glide effortlessly when capping or posting with an action that is both smooth and satisfying. This unique system allows for compact dimensions when capped that become full length and perfectly balanced when posted for writing.

The Dakota collection is available in either fountain pen or liquid ink gel pen modes. The fountain pen features a premium #5 nib, produced exclusively for Monteverde in Germany by JoWo. The nibs are offered in three distinctive point sizes: Extra fine, Fine and Medium.

Colors and Trims:

**Raw
Flame**

**Black
Sky**

**Stainless
Steel**

**Military
Green**

**Offered in two modes:
Fountain pen & Liquid ink gel pen**

[illegible]

-
- The image shows four Cross pens arranged diagonally across a technical drawing of an aircraft engine. From left to right: a black fountain pen with a silver clip; a dark green fountain pen with silver bands and a silver clip; a blue and red iridescent ballpoint pen with silver bands and a silver clip; and a silver ballpoint pen with a silver clip. The background is a detailed technical drawing of an aircraft engine with various parts labeled, such as "LAMINATED WALNUT PROPELLER TYPE DEAG", "22-25 HP ACZANT ENGINE", "ELECTRIC WIRE", "WING SPAR BOX", "WARP WIRE GUIDE PULLEY", "FUEL TANK", "FUEL GAUGE", "FLIGHT - WINDY RESISTANCE WIRES", "EL TUBE OSCILLITY BRACE", "FLORA", "PAINING C", "EXIDES ON", "RUBBER - S", "WHEEL CH", "EVATOR A", "TING ELE". The Cross logo is visible on the silver ballpoint pen.
- Key Features:**
- Slip-in Cap
 - Jowo #5 German-made nib
 - Choose Fountain pen or liquid ink gel pen
 - Solid stainless steel construction
 - Hand-flamed finish on the Raw Flame variant
