H O M E W A R E S
B Y T A R H O N G

Since 1956, TarHong has been a leading supplier and global distributor of restaurant quality melamine and plastics. With our roots in servicing the hospitality industry, we have set our standards to meet all NSF and FDA requirements and are prop 65 compliant. With our focus on quality materials and innovative melamine mold design, in 2005 we became one of the premiere leaders as a vertically integrated manufacturer and vetted supplier for a wide variety of independent and mass retailers. Our in-house creative team drives trend and innovation developing collections to provide our retail partners with products that speak to their individual brand standards and deliver newness to the market.

We are proud to introduce our premium and exclusive, first to market, **NewWave by Abode melamine**. For the first time, melamine dinnerware can be safely used for reheating in the microwave. Our newest collections are almost all exclusively now available in our microwave safe melamine for 2025. We are also proud to bring to market new colorful patterned collections and coordinating acrylic drinkware that will brighten any outdoor or indoor gathering and celebration. The durability and ease of polypropylene and wheat straw polypropylene allows for new innovative styles in drinkware and serveware that is both lightweight and perfect for use by the whole family because of its resistance to breaking. We especially find it the perfect solution for use in pet feeding products in our latest pet offerings for 2025.

Welcome to Abode.

INTRODUCING OUR EXCLUSIVE PREMIUM MICROWAVE SAFE MELAMINE!

- safe for microwave reheating only
- dishwasher safe
- all BPA free
- passes FDA, EU, and ash tests
- applied to dinnerware
- sizes appropriate for standard microwaves

newWave
BY ABODE

Each product is stickered and backstamped to inform the customer of the features, benefits, and care.

This exclusive material enhances our typical TarHong melamine quality, strengthening it for reheating, while maintaining the same design and vibrancy of color and decal decoration.

natureone

Exclusively developed by TarHong, our **natureone** material is made primarily of plant-based resources, without any petroleum, BPA and phthalates free. Safe for dishwasher and reheating foods in the microwave. Soft organic shapes in crisp matte white, it's a perfect choice for picnics, gatherings, and indoor and outdoor use. Totally reusable and break resistant. **natureone** is a smart alternative to single-use paper or plastic products.
