46 Mission Statement

48 Distributors

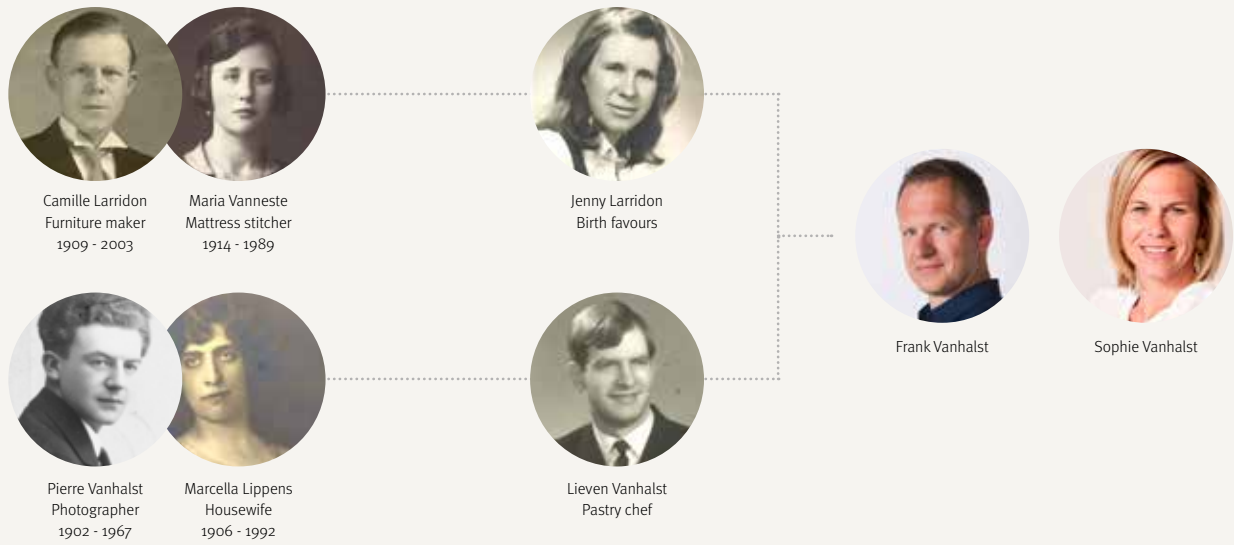

“The Vanhalst - Larridon family has been
a family of creative entrepreneurs ever since the start of the 20th century.”

Until the age of 33, **Camille Larridon** lived with his parents where he built a little work space behind the house. As of 1945, he started manufacturing his own furniture in an old shed that was used for dressing flax. The warmth of the house was better suited for varnishing, which is why he used to finish most of his pieces at the kitchen table. In 1950, Camille decided to build a new shop and open a store.

Pierre Vanhalst earned a living as a photographer right after the First World War. Several of his sons followed in his footsteps. But not Lieven Vanhalst. Together with his wife, Jenny Larridon, he settled down in Izegem in 1968, to establish a pastry shop. They knew little people in this town and decided to add birth gifts and dragees to their range. Young people rapidly found their way to the pastry and birth gift shop.

In the 90's, the shop evolved into a wholesale business for wedding, birth or any other small party gifts. Given creative entrepreneurship was always passed on to the next generation, Sophie and Frank also joined the business in 2001. They launched the brand **bb collections**®, currently known as **Objects by Vanhalst**®, which represents the transition from traditional wholesale to consumer focused product development and the start of creating their own ranges of small gifts. In 2015 Vanhalst introduced **Atelier Pierre**®, accessing the international market of 'living accessories' where new customers rapidly showed interest in the cute, fresh and playful designs from the Vanhalst creative team. With the official licence to work with the iconic figurine of miffy, the fundamentals were born for **Atelier Pierre Junior**®, already an “absolute must-have” kids collection.

Vanhalst consistently commits to work proactively on durability. From planting a “life forest” of 1.000 trees in 2013 that serves as an outdoor meeting room, to continuous striving for a perfect balance of biodiversity, by welcoming 80.000 bees in the forest, sustainability has always been in the company’s DNA.

Paulien and Kaat

Dentelles lamp for indoor and outdoor use

Between the ages of six and eighteen, Paulien went to art school, where she fully indulged in drawing, painting, arts and crafts. She loved everything that was beautiful, and she still does... The creative bug never left her.

Even so for Kaat, being creative in its broadest sense, is her big passion. Add to this her solution-oriented mindset and you have the perfect starting point for the development of a product with real added value.

Both Kaat and Paulien are convinced that a product has an important influence on its environment and vice versa. The main purpose of the Dentelles collection is to bring people together in a warm and stylish atmosphere. The shape, texture and warmth of the light reveal that they did a perfect job together!

Bert

noRdic received the Design X50 label

Bert has always been a natural at creating things, even as a child. "My very first experience must have been K'nex. Once I had finished the model on the box, I would take it apart and build creations of my own.

Frankly, I'm not quite sure what I enjoy more, the physical or the graphic aspect of design. A combination of both would probably be ideal."

This is reflected in the noRdic collection, which he designed for Atelier Pierre. The idea of a jigsaw puzzle, the early start of the noRdic range, was conceived in the college workshop. During a practical lesson, Bert was tinkering with sheets of wood. He made all kinds of notes and sketches, and eventually came up with the first outlines of the moose puzzle – the birth of noRdic.

Restaurant Essenz

Belgium - Antwerp

Discover Essenz, a unique gem in Antwerp's gastronomic foodscene, where culinary excellence stands out. Chef Joris Hoefkens mentored by a.o. Peter Goossens (Hof van Cleve, two-star Belgian restaurant) masterfully infuses French-Belgian flavours with subtle twists, creating an unforgettable journey through the world of taste and refinement. Experience culinary dining at its finest, where every moment is enriched by the elegance of Dentelles.

Dentelles

Paulien and Kaat

Dentelles lamp for indoor and outdoor use

Dentelles refers to the paper doilies used by Lieven and Jenny Vanhalst in the Pastry Shop in the 70's. If you pile up several doilies, you get the shape of this lamp. And just nice to know: the word contains 'elles', which refers to 'les filles' - the girls - in French. Indeed, Dentelles is designed by two young ladies, Paulien and Kaat.

Dentelles stands out in any interior or exterior and is very versatile. Most objects are wireless and therefore easy to move. Moreover, the lamps can simply be dimmed by tapping or by using the on/off button below. The module is 100% recyclable and non-breakable.

“Vanhalst, a creative family business, designs affordable living accessories, ideal as a small attention or a gift for every occasion, but also as a personal treat.”

Mission Statement

Vanhalst, a creative family business, designs affordable living accessories, perfect as a small attention or a gift for every occasion, but also as a personal treat. Meticulous design is the basis for collections developed with a profound respect for people, the environment, tradition and authenticity with a view to securing the continuity of the company.

Vanhalst surprises. Our products have the power to make memories tangible and, therefore, prolong them. Design & personalisation elevate the product to a unique experience. Through the Objects by Vanhalst® and Atelier Pierre® brands, Vanhalst seeks to establish a meaningful dialogue with the consumer. Vanhalst wants to consolidate its leading position in gift articles and establish itself as a creative challenger in the living accessories market.

The company has 5 mutually reinforcing **core values**:

Giving is living:	the essence of what Vanhalst stands for
Integrity:	acting from a genuine concern for customers, consumers and products
Commitment:	a team fuelled by passion
Innovation:	continuously innovating and transforming
Simplicity:	focus on the essentials, in its purest form

Mission Statement

Respectful entrepreneurship

In 2009, the Vanhalst company building was awarded the 'Quality Industrial Buildings of West Flanders' certification mark. The Vanhalst family values are clearly reflected in the design of the building. Not only creativity, simplicity, and functionality are important, there is also a focus on consideration for people, environment, budget and tradition.

In order to emphasize the extent of their involvement, Vanhalst also signed the 'West Flemish Charter for Sustainable Enterprise'. For this, a company voluntarily commits to work proactively on specific topics. This charter is a tool which allows to add structure to a sustainable enterprise policy, and it is the driving force for a continuous improvement of environmental, social, and economic achievements.

As part of this program, Vanhalst planted 1.000 trees on company grounds in 2013. Vanhalst installed an outdoor meeting room and gathering place amidst the trees in 2017.

The youngest project in this continuous striving for a perfect balance of biodiversity, is the welcoming of 80.000 new colleagues in our 'company forest'. Together with a local beekeeper we decided to help man and nature to enlarge the bee population in our region, a perfect illustration of the respectful entrepreneurship the company stands for.
